

Explanation Of County Zoning In January

Hearings Properly
Conducted,
Lack Of Understanding
Among Public Is Cited

Conferences and informative reports are planned for January to further explain the Madison county zoning proposal, Thomas Butler, Alton, County Zoning Commission chairman, said yesterday in announcing postponement of further zoning hearings until February.

Reporting the results of a commission meeting Wednesday morning, Butler said it is felt that lack of understanding among some county residents has impeded the conduct of hearings. It is planned to confer with responsible educational and industrial groups, he added.

Hearings already conducted in 10 townships have demonstrated there is an absence of understanding throughout the county as to the facts of the zoning process," Butler commented.

"This has impeded the commission's progress in carrying out its statutory function, which has only two parts:

"One, to discover by these hearings in each township any errors in the zoning map of that township, and to receive suggestions for logical changes and corrections.

"Two, to discover any errors in the text of the proposal ordinance, and to receive suggestions for improving its language or its provisions.

Public Information Task

"It is not the function of this commission to give a comprehensive explanation of the process of zoning. The commission has no facilities for this, and it is a task that must be left in the hands of well-established channels of public information—the newspapers, radio stations and civic organizations," Butler said.

"Concerned as to the economic position of the county, not only for the future but for the actual present—these agencies have become apprehensive over the commission's action during the last few weeks.

"They suggest that we defer the completion of the zoning map of hearings in the remaining 12 townships for at least a month. Hearings are planned for 22 of the 24 townships, and 10 have been held. Alton and Granite City do not have unincorporated areas within their city-township boundaries.

"This will give them an opportunity to provide accurate information to the citizens whose property values are being protected or enhanced by the adoption of a zoning program," the chairman continued.

"Will Benefit All"

"They agree with our belief that this sound economic program which will benefit all citizens and property owners, and that it should not be distorted into an emotional or political issue, for which the commission—serving voluntarily—is neither qualified or appointed.

"Meanwhile, we will also follow their suggestion that we arrange an informal conference by which representatives of responsible agricultural groups and industrial groups in the county, to let them have an opportunity to evaluate the procedure and to advise their constituents of their appraisal."

At a meeting on zoning last week, Alton W. May, zoning commission chairman of the County Board of Supervisors, defended the commission against attacks by a small group of opponents, which has been attempting to arouse resentment against zoning among farmers and other groups.

Charge "Untruths"

Criticizing the tactics of some of the zoning foes, May said (Continued on Page 3, Col. 1)

BIRTHS

Births recorded at St. Elizabeth Hospital:

GIRLS

Mr. and Mrs. James Dover, 2309 Bryan avenue
Mr. and Mrs. Hansel Eick, 2562 North street

BOYS

Mr. and Mrs. Albert Janice, 3028 Sundry drive
Mr. and Mrs. John L. Smith, 4127 Ponton road
Mr. and Mrs. Thomas Loftis, 2013 Hildebrand avenue, Madison

Levee Trustees Defer Action On Bond Sale Plan

Action on a proposal by East St. Louis bankers and a Chamber of Commerce citizens' committee that the group handle at little or no fee the sale of \$1,853,290 in general obligation bonds to finance 10 proposed East Side Levee & Sanitary District projects was deferred by the board of trustees last night in East St. Louis.

President Lawrence Tolar said the board agreed in principle with the provision of the citizens' committee proposal, but must await the outcome of a hearing in East St. Louis city court before any action can be taken.

In a somewhat heated discussion between levee board members, their attorneys and Eugene Doran, president of the East St. Louis Chamber of Commerce, Levee Board Attorney John Sprague told Doran: "I will not recommend adoption of the plan to the board in the face of the pending injunction suit."

Sprague was referring to an injunction petition filed in East St. Louis city court by Omar Brumitt of Cahokia which alleges that the levee district's contract with Madison County, Illinois, a fiscal agent to handle bond sales, is illegal.

Bar Group Intervenes

Although the board has requested and been granted release from its contract with the district since that time, the suit is still pending, and the matter was still further complicated by the intervention of Atty. Bernard Bertrand, who represents the Illinois State Bar Association's committee on unauthorized practice of law. In a brief conversation with the board, Bertrand said the committee is not in a position to take any action until the board has agreed to handle bond sales, is illegal.

Bar Group Intervenes

Bernard Bertrand, who represents the Illinois State Bar Association's committee on unauthorized practice of law. In a brief conversation with the board, Bertrand said the committee is not in a position to take any action until the board has agreed to handle bond sales, is illegal.

Governor On Vacation; No Hodge Decision

(Special from Springfield)

Gov. Otto Kerner left Springfield Tuesday for a two-week vacation in the Caribbean without announcing any decision on the emergency appeal by Mayor Edward J. Hodge, Jr., of the proposed former state auditor Orville E. Hodge.

"The building it is believed the governor will continue a study of the voluminous report submitted to him by the emergency committee on the Hodge case," said a spokesman for the Governor's Office.

Parish Board and that he might announce his decision from a Caribbean Island.

Reminds Voters of March Registration Deadline

County Clerk Eulalia Hotz has reminded unregistered voters that March 12 is the deadline for registration for the April 10 primary election.

There has been a marked increase in interest among young people who will be eligible to vote for the first time this year, Miss Hotz said. She said voters will be 21 on or before the day of the election may vote.

A number of college students presently home for the holidays have registered during the past week, she said. She also noted, once properly registered, voters may defend the commission against attacks by a small group of opponents, which has been attempting to arouse resentment against zoning among farmers and other groups.

Drainage, Treatment Plan Still Under Study

Granite City, and most other communities in the area, will not meet the Dec. 31, 1961, deadline set several years ago by the Illinois Sanitary Water Board for halting pollution of the Mississippi River.

Because of the failure, Granite City must now "pay the paper" by not increasing its pollution of the river, and the net result is a virtual halt to pollution expansion and annexation of the city's water supply.

The Sanitary Water Board issued an order last July 31 prohibiting further sewage connections in the city.

However, Granite City is not at a complete standstill. Under study by the city council is a program recommended by the Citizens' Master Sewer & Drainage committee which

GC Pushes For ITR Rail, Tie Removal

Hearing Next Month;
Refuses To Sign Check
For Sewer Backup

Efforts by the Granite City council to require Illinois Terminal Railroad to remove abandoned trolley tracks and remove the sections of streets are continuing on a hearing before the Illinois Commerce Commission of Springfield is to be held late next month or early February.

City Atty. William Beatty reported to the Public Works Committee Tuesday night that ITR has offered to pay the city \$12,000 to remove the sections of track and in accordance with payments to the cities of Madison and Venice. In a brief council session, the committee meetings, Mayor Davis told the council he refused to sign a \$500 check as payment for removal of the tracks.

PATCHED AND BROKEN

right-of-way of the old Illinois Terminal Railroad McKinley Bridge trolley line which the city has hopes of repairing either with funds supplied by ITR for track and tie removal and repairing or with state motor fuel tax funds. The above view was taken looking south in the heavily-traveled 2100 block of State street.

Madison Council Raises State St. Auto Speed Limit

Madison's city council voted Tuesday night to increase the speed limit on State street from 25 miles per hour to 35 mph to expedite the flow of traffic through the community.

Mayor Stephen Maerz explained that the legal department would be instructed to amend the traffic regulation of the city.

Speaking for the police and streets and alleys committee, Third Ward Alderman Richard George echoed Chief of Police Harvey Fraundorfer's recommendation, and the council members accepted the suggestion unanimously.

Police Studying Photo of Ring of Missing Woman

Search for the identity of a woman whose skeleton was found in woods here Dec. 3 took a new turn yesterday afternoon.

Photographs of the woman's ring and earring worn by a witness 14 months ago were matched by Madison police and forwarded to the state police crime laboratory in Springfield for further study.

It is not known whether the woman in the Madison investigation, Mrs. Virginia Lowry, 30, is dead, but efforts to locate her in St. Louis during 1961 failed.

She resided in the 2000 block of 13th street, Granite City, when held as a material witness in the Nov. 3, 1959, fatal shooting of Loraine Oliver, 31, Granite City, the father of four children, at Fourth street and Madison avenue.

John W. Stamps, 21, Granite City, is serving a prison term for the killing. He said he fired once at Oliver's head while the two were seated in the front of a car.

Mrs. Lowry, a divorcee, who had accompanied Oliver to a short time before he was killed, could not be found when sought as a witness in the Illinois Dramshop Act civil suit resulting from his death. Stamps, 21, joined the couple at the tavern.

Motive—Key To Mystery?

With Stamps pleading guilty, the motive for ending Oliver's life has never been established.

If Oliver's woman companion also is dead, police believe there could be a link between the two deaths; their theory is that someone may have wished to silence Oliver, and that her acquaintance with him resulted in similar action against her.

He has never been established. Stamps said he fired once at Oliver's head while the two were seated in the front of a car.

Mrs. Lowry, a divorcee, who had accompanied Oliver to a short time before he was killed, could not be found when sought as a witness in the Illinois Dramshop Act civil suit resulting from his death. Stamps, 21, joined the couple at the tavern.

Undergo Surgery

The following are recovering at St. Elizabeth Hospital from surgery which they underwent this week: Stephen Balal, 1618 Maple street; James Dally, 2565 North street; Clarence Armfield, 2233 Cleveland blvd.

26 DAYS WITHOUT A TRAFFIC DEATH

Madison Council Raises State St. Auto Speed Limit

Madison's city council voted Tuesday night to increase the speed limit on State street from 25 miles per hour to 35 mph to expedite the flow of traffic through the community.

Mayor Stephen Maerz explained that the legal department would be instructed to amend the traffic regulation of the city.

Speaking for the police and streets and alleys committee, Third Ward Alderman Richard George echoed Chief of Police Harvey Fraundorfer's recommendation, and the council members accepted the suggestion unanimously.

Seal Crossing Signals

The council also passed a motion to instruct the legal department to prepare an application asking the Illinois Commerce Commission to conduct an investigation leading to installation of railroad crossing signals at the Illinois Terminal Railroad crossing on State street between 13th and 14th streets.

Alderman George said the signals will be needed with the increased rate of speed on State street.

In other business, the council authorized City Treasurer Dennis Nicholas and City Comptroller Edward J. Miller to transfer \$20,000 from the special revenue fund and invest it in time saving certificates.

Mayor Maerz explained that the available yield of interest they can obtain. The city's special revenue receives \$100,000 annually from the city-owned Chain of Rocks Bridge.

Despite acts of vandalism, which have included the dumping of park benches onto the railroad surface of the park district's artificial ice rink in Wilson park, the park board approved the reflooding of the rink for skating during its regular meeting last night.

The board urged youngsters to be more considerate of the facilities, which are provided at no cost to the users. Sgt. P. O. H. Williams said reflooding of the rink would be effectively stopped, expansion of the rink would be effectively stopped.

At the brief meeting board members heard a report on the executive board meeting of the Madison City Council.

In presenting the citizens' committee's recommendations to the council, Chairman G. W. Hoelcher pointed out the Sanitary Water Board order has effectively stopped expansion of the city, which is "now shackled" until it complies with the order.

The SWB requires the city council to adopt an ordinance outlining a method of financing a sewer system, and construction plans for a sewage treatment plant before the sewer connection can be lifted.

The citizens committee recommends a \$7,800,000 revenue bond issue at an estimated 4 1/2 percent rate to finance the sewer system.

(Continued on Page 2, Col. 5)

Extra Law Officers To Be On Duty In Area New Year's Eve

Advance preparations for New Year's Eve are being made by most law enforcement agencies in the field of law enforcement, due to the prospect of increased tavern and night club business from Missourians.

The Missouri bar on Sunday drinking will limit serving of drinks there to the midnight-1:30 a.m. period. Similar circumstances have occurred in the past, but authorities in the St. Louis area generally relaxed the rules; this year, Missouri state liquor agents will be out in force.

Much of the extra business may find its way to Madison, which has a 4 a.m. law. Instead of five officers, the police department will have six on duty.

Two extra officers in three patrol cars. The 4 o'clock Madison law will be "strictly enforced," by order of Mayor Stephen Maerz, Illinois county commissioner. Strict enforcement has been waived on some past New Year's Eve's.

Police Chief Frank DeWitt does not expect many Missourians to come to Venice, but two extra officers hired for the holiday season will augment the regular force that night, he told the Press-Record. "We'll be ready for them," he added.

"We will not be lenient" in the enforcement of laws New Year's Eve, Granite City Chief Raymond Willard said, adding that he expects very few Missourians prior to the 1 a.m. closing. The usual staff of 10 officers will be on duty.

County, State Preparations

Sheriff Musso told the Press-Record he has instructed night deputies to wear double shields to place all three of the county's patrol cars in constant operation during the night and early morning hours.

In addition, regular day deputies throughout the county, who operate their personal cars with two-way radios, will be on duty and Sheriff Musso said he is assigning duties to key special deputies wherever night clubs are located.

State police also are taking extra duty in the area to be on constant patrol to curb drunken driving.

Six-Point Proposal

The six-point proposal made by the Foundation for support from the Tri-Cities Area United Fund is:

1. The Foundation has asked that it be included in the local Health Services Fund for payments on behalf of medically injured sufferers from arthritis and rheumatism who use St. Louis clinics.

Clinics are supported at Firm in Desloge Hospital, Washington University Hospital, Jewish Hospital and St. Luke's Hospital in St. Louis. The social service departments at each hospital determine the degree of indigency and whether the patient should be free, part pay or full pay for the care received.

The chairman of the chapter's Medical, Scientific, Committee member, signs an authorization for treatment, after a referral by a physician. Physical therapy is given at two of the hospitals.

Femin Deolage and Jewish Hospital chapters have provided services, chairs, beds, medication tests as needed to medically indigent.

State Route 111

State Route 111 also is scheduled to be widened to four lanes for a distance of 2.35 miles at U.S. Bypass 40-66 east of Mitchell to Ponton road at a cost of \$1,000,000. Two lanes are to be added and the existing two lanes are to be resurfaced.

On Interstate 270

Work On Route 151 Scheduled For Next Year

Progress Section
In Today's Issue

"Progress Review and Forecast," an analysis of the past year and prospects for the coming year, is published on Pages 21, 22, 23 and 24 of today's issue.

The ninth annual forecast section, it is the largest yet assembled by the Press-Record.

The 28 articles contain informed comments on the Quad-Cities' economy by leaders in the fields of retail trade, industry, agriculture, commerce, utilities, education, government engineering, county and city planning and port development.

Arthritis And Rheumatism Group Asks Local UF Aid

The Tri-Cities Area United Fund Social Planning Council will meet at 4 p.m. today in the Granite City YMCA to discuss a recent application from the Eastern Missouri Chapter of the Arthritis and Rheumatism Foundation for support from the local Health Services Fund.

At a recent meeting of the United Fund's Medical Advisory Committee, Mrs. A. G. Eschrich, executive director of the Eastern Missouri Chapter of the Arthritis and Rheumatism Foundation, described the patient care program of the Foundation in this area.

Aid Sought

The Foundation has asked that it be included in the local Health Services Fund for payments on behalf of medically injured sufferers from arthritis and rheumatism who use St. Louis clinics.

Clinics are supported at Firm in Desloge Hospital, Washington University Hospital, Jewish Hospital and St. Luke's Hospital in St. Louis. Mitchell Residents Asked To Stake Meter Locations

Installation of individual meters for customers of the Mitchell Public Water District system was started yesterday, and residents are being asked to the stake on their property at the point where they want their meters to be located.

Operation of the system is expected to be started within the next few weeks. Edward Juncos of the engineering firm of Shepherd, Morgan & Schwaab, who today a connection has been made with the Granite City system for a distance of 2.35 miles, will be Belmonte Place immediately north of Granite City with 150 to 200 connections.

The first area to be served will be Belmonte Place immediately north of Granite City with 150 to 200 connections. The first area to be served will be Belmonte Place immediately north of Granite City with 150 to 200 connections.

Water lines, said construction of water lines virtually is completed with minor work to be done for service being asked to set stakes for location of meters.

James A. Elmore, 72, Succumbs In Florida

James A. Elmore, 72, of 1818 Ohio avenue died at 9:30 p.m. Christmas Day at a Dandelin, Fla., hospital, shortly after he was stricken by a sudden heart attack at the home of a daughter. It was learned here this week.

He had his wife, Emma, visiting for the winter with their son-in-law and daughter, Mr. and Mrs. Leslie Bauer of New Port Richey, Fla. Spending their second winter there, they left Granite City Nov. 2.

Mr. Elmore retired eight years ago after 50 years as an engineer with the Nickel Plate Railroad. He was a member of the Brotherhood of Locomotive Engineers.

Born at Doniphan, Mo., he had been a Granite City resident 47 years and was a member of the Dewey Avenue Methodist Church.

Survivors, in addition to his wife and the daughter in Florida, are a son, James L., and two other daughters, Mrs. John (Mildred) Sherman and Mrs. James (Evelyn) Thompson, all of Granite City; two sisters, Mrs. Marie Busk of Granite City and Mrs. Cora Davis of Neelyville, Mo.; a brother, Mitchell Elmore of Granite City; eight grandchildren and two great-grandchildren.

His remains have been returned here for services and burial. Funeral arrangements are given in the obituary column.

Granite City PRESS-RECORD Page 2 Thurs., Dec. 28, 1961

Long Lake Amvets To Hear Report On Baskets
A report on Christmas baskets distribution will be made at the regular meeting of the Long Lake Amvets Post 187 Tuesday night. Fred Schmidt was chairman of the work.

With all members participating, the Amvets and Auxiliary distributed 32 Christmas baskets Dec. 23, giving canned goods, fresh fruits and vegetables and turkeys.

Where needed, clothing and toys were given, and in one instance coal was given. Some of the names were obtained from the Salvation Army, Schmidt said, while others came from the township relief office.

The meeting Tuesday will be at 8 p.m. at Chuck's Tavern, 4001 Kaseberg lane.

Backs Into Truck

Gordon B. Alexander, 59, of 2115 State street, escaped his jury Tuesday afternoon when he backed into a St. Louis Gateway Transfer Co. truck-trailer at 21st and State streets. Police said the southbound truck was making a left turn onto 21st when it stopped for Alexander's westbound auto on 21st. Alexander started to back up when the mishap occurred. The truck was operated by St. Louisian Stephen J. Wright, 36.

Fund through its Health Services Fund follows:

1. A physician from the Tri-Cities Medical Society be appointed to serve on the Medical Scientific Committee.

2. A member of the Tri-Cities Area United Fund board of directors be appointed to serve on the foundation board of directors.

3. Any local physician could send patients to one of the St. Louis clinics.

4. The clinic would admit the patient and do case work to establish medical indigency if indicated.

5. The Tri-Cities Area United Fund would authorize the service required and agree to assume costs through the Health Services Fund, by referral to the Social Planning Council.

6. Service would be given to the patient and Health Services Fund would be billed.

Unanimous Recommendation
The local Medical Advisory committee was unanimous in recommending to the United Fund that payments be made through the Health Services Fund, starting 1962, according to the above procedure.

The advisory committee also suggested that consideration be given to allotting funds for research in the Health Services Fund for 1962, at the end of that year.

On the question of the use of unexpended balance of the Health Services Fund for 1961, the committee agreed to recommend that it be used to pay unpaid charges due St. Elizabeth Hospital for diagnosis in their bi-weekly Heart Clinic. The unpaid balance is \$211 and the Health Services Fund has an unexpended balance of \$1021 of its original \$1,000 allocation for 1961.

The advisory committee also suggested that if there is a balance in the Health Services Fund, it should be used to establish a Health Services Reserve account for future use.

The above suggestions will be discussed and voted upon at this afternoon's meeting of the Social Planning Council and the results will be forwarded to the Tri-Cities Area United Fund executive committee for approval.

A. O. Smith Names James Donnelly To New Post

James P. Donnelly sr. has been named to the newly-created post of executive director of marketing for the A. O. Smith Corp., it was announced this week at Milwaukee by F. S. Donnelly, executive vice-president.

Before taking over his new duties, Donnelly was manager of the firm's glass fiber products division which is becoming the nucleus of Dow-Smith, Inc., a joint venture between A. O. Smith and the Dow Chemical Co., of Midland, Mich. His new duties will include coordination of both the marketing activities of the company's various product lines and the sales activities of commercial vice-presidents. He joined the Smith firm in 1944.

Rites Today For Sister Of Lawrence Markham

Gravestone services were held at the Valley View Cemetery, Edwardsville, at 2 p.m. today for Mrs. Edna Flick Martin of Phoenix, Ariz., sister of Lawrence Markham, Rural Route One.

Mrs. Martin, 63, died of an apparent heart attack Dec. 22. She had spent her entire life in the Wood River area until moving to Phoenix 10 years ago. Funeral services were held in Phoenix Tuesday.

Survivors, in addition to her brother here, are her husband, Thomas; two other brothers, Henry of Edwardsville and Ray Markham of Denver; and a step-daughter, Mrs. Earl Mundell of Alto.

Vital Records Law To Regulate Information

Restrictions on release of information under the new state vital statistics act will not significantly affect the operation of his office, according to City Clerk A. L. Stevens, local registrar.

Stevens said he has not yet received a copy of the new law, but understands it spells out specifically who is and who is not entitled to information contained in such records as birth and death certificates.

This problem has come up from time to time, Stevens noted, when such information was sought for commercial use. There has been no clear restriction on granting such information in the past.

The new vital statistics act, effective Jan. 1, declares the state and local registrars, such as Stevens, to be custodians of the information, and requires such vital records to be kept in a safe place.

Access to the records is limited to the custodians and their employees, and then only for administrative purposes. Information from the records may be released by certification or certified copy on receipt of a written request and a \$1 fee.

Information given by certification is limited to name, sex and date and place of birth, under the new regulations.

Certified copies may be issued to the individual of record, or to a parent or other legal representative. A certified copy of a death record may be granted a person having a personal or property interest in the deceased.

The new act also calls for the use of new birth certificate forms which have been distributed.

GAS HEAT HEADQUARTERS, TRI-CITY HEATING, GL-2-110.

MORE ABOUT Drainage, Treatment

(Continued from Page 1)

age treatment plant and a system for separating the city's sanitary and storm water sewage, with the cost to the average household amounting to \$3.40 a month for a 38-year period.

Double-Purpose Program

The overall system would cost close to \$10,000,000, but \$1,800,000 financial aid from the levee district and \$800,000 from the federal government would reduce the cost to an estimated \$7,525,000. Its purpose would be not only to end river pollution, but to eliminate storm water and also reduce construction drainage problems in the city sewage treatment plant. A plant and sewerage system of the much larger capacity and higher operating costs would be required if sanitary and storm water sewage were not separated.

Industries also would share the cost of the treatment plant and separate sewer systems.

The city has four alternate proposals for pollution abatement with a \$1,200,000 municipal levy and operated plant recommended by the citizen group. The cost amounts to an average monthly charge of 70 cents per household and calls for separation of sanitary and storm water drainage.

It compares to a separate plant proposed by the East Side Levee & Sanitary District costing \$2,537,000 to build to handle combined sanitary and storm water sewage with a monthly charge of \$1.97 per household. The \$1,700,000 difference, the citizen committee points out, could be used for separation of the sanitary and storm water sewage not only to cut construction

New Method For Viewing Television

Leave it to children.

A grade school girl whose father received a pair of binoculars from Santa Claus has taken up a new method of long distance, but close range television viewing.

With the sets volume turned to nearly full blast, she sits about 16 feet away with her back to the wall and watches her favorite programs through the binoculars.

Edwardsville Rd. Crash

Two northbound cars on Edwardsville road collided at 2:45 p.m. Tuesday at the traffic light in front of the Granite City Steel Co. blast furnace plant. Police reported damage to the rear of an auto operated by David Kelly, 23, of 1423 Third street, Madison, and to the right side of a car driven by Freda Sutherland, 30, Collinsville. No injuries were reported.

Another proposal by the levee district for a joint treatment plant for the three local cities with Granite City's sewage separated, calls for a \$2,047,000 treatment plant with an estimated monthly charge of 75 cents per household. Under this proposal, Granite City would be required to separate its sanitary and storm water sewage.

Many good cooks like to use a combination of butter and a bland oil when they brown chicken or meat; the oil helps to slow down the browning of the butter.

Crimson Satan, winner of \$180,819 in the Garden State, was bred by Peter W. Salmen Sr. of Detroit at his Crimson King Farm in Lexington, Ky. His son, Pete, 23, manages the farm.

MORE ABOUT Explanation Of County Zoning

(Continued from Page 1)

they are using "untruths" and "distortions" to mislead the public into opposing zoning. He said zoning is necessary to protect property values and to attract new industry, thus maintaining adequate job opportunities for county residents.

Verbal abuse and threats of physical harm have been heard from the audience at many of the public hearings held so far.

While the commission and committee feel that most county residents would favor zoning if they had a clear understanding of what is proposed, Butler indicated that a fuller explanation and broader support are regarded as essential, in view of the conduct occurring at the hearings.

Hits Crossing Gate

The hood of a car driven by Walter P. Touth, 66, St. Louis, was slightly damaged at 3:50 p.m. yesterday when he ran under a railroad crossing gate while going west on Broadway in Venice. The crossing gate was not damaged.

Boilermakers Extend Contract To Jan. 7

Extension to Sunday, Jan. 7, of a three-year contract due to expire Dec. 31 was agreed upon yesterday in a negotiating session between officials of Boilermakers Local 575 and the A. O. Smith Corp. auto-frame manufacturing plant. The firm also is negotiating with the Electricians Local 308 and Machinists District 9 to replace contracts that will expire at midnight Sunday.

The contract talks between the Boilermakers, representing about 1000 workers, and company are continuing today after lengthy, daily sessions this week. No meetings have been held this week between the company and the electricians and machinists unions, but sessions probably will be held tomorrow or Saturday. The plant employs about 24 electricians and 21 machinists, who are working under one-year contracts.

All three unions are seeking pay increases and other contract changes, but by mutual agreement between the unions and the company none of the details are being disclosed.

Also due to expire Dec. 31 is the contract of 400 members of Oil Chemical and Atomic Workers Local 7-663 with Union Star and Refining Co. Negotiations sessions have been held in recent weeks, but none is scheduled this week as the plant is closed for its annual holiday maintenance program. It is scheduled to resume production next Tuesday, Jan. 2.

State Street Crash

A collision at 2:45 p.m. yesterday at State and Eighth streets, Madison, involved cars driven by Edmund Higgins, 47, of 2801 Kirkpatrick Homes and William Vogel, 22, of St. Louis. Damage was done to the right side of the Higgins car, going north on State, and the right front of the other vehicle, turning left onto State.

Mayor Davis asked what would have happened if the occupants of the house had set the plug in their basement drain.

Other Storm Water Damage
Whitmer replied that he had looked into the matter thoroughly and learned that others living in the area, including the residents next door, had drain plugs in place and still had a backup of storm water, but no sewage. City dependency on pumps at times of high water stages of the Mississippi river was brought out by Alderman Steve Busarich, who said the Nameoki area

Seek State Funds

In other action by the Public Works committee, City Atty. Beatty was instructed to confer with City Engineer David Johnston on progress in the city's request for motor fuel tax aid in financing the rebuilding of a trunk sewer line under both street firm bids are to be sought for repairs to the wrecked station wagon assigned to the superintendent of streets; and the committee agreed not to make a recommendation to the council on furnishing uniforms to 8 members of the sanitation department as required under the new contract between the city and Teamsters Union.

The committee will give the council data on the lowest bid and let the council make a final decision. Several committee members expressed a hope the

menace of Communism stressed by McBride

The menace of Communism was stressed to Madison Rotarians yesterday in a talk by John McBride, Union Star and Refining Co. vice-president and a general manager.

The speaker urged that all study Communism and become familiar with the principles and benefits of the American system. It is imperative that everyone have a full understanding and be willing to defend the concepts that have produced the freedom and way-of-life enjoyed today, he asserted. He was introduced by John Sedlak, program chairman.

The club met at the Laclede Steel Co. with Supt. G. R. Clarke host for the luncheon.

Vice-President Larry Falkes presided and announced that American flags lining the entire length of Madison avenue in Madison are ready for display on appropriate days.

matter would not be pushed by the department members because of the city's financial distress and the added annual cost of nearly \$1600 a year for the uniforms.

(Continued from Page 1)

approved, Alderman Mrs. Gabrielle Bettine asked why payment of the \$500 bill, approved by the council several weeks ago, for backup pump damage in a home in the 3100 block of Ash avenue was not included.

Mayor Davis replied, "I refuse to sign the check. I feel it would set a precedent and we would never get caught up paying such claims."

"Every time it rains, there is a backup of sewers and we'll be getting hundreds of claims. 'I personally will not sign the check. Legally, I don't know how you'll get it,'" the mayor said.

Veto Too Late?

Mrs. Bettine questioned the mayor's authority, pointing out that if he had intended to veto council's action, he had failed to give notice within the required five-day period.

The mayor conferred briefly with City Atty. Beatty, as Mrs. Bettine pointed out that sewage had backed up into the basement due to mechanical failures to two city-operated pumps and that damage had been set at \$2000.

Alderman Walter Norn commented that the only way to get the check signed by the mayor would be to institute mandamus proceeding; and Atty. Beatty added, "You can't force him to sign."

Several other aldermen commented on the mayor's stand. Alderman Whitmer said he opposed most claims against the city but believed that with the superintendent of streets stressing the mechanical breakdown of not one, but two pumps, the city should bear some responsibility. "If it had been an 'act of God' due to the storm on that August night, I would say no, but the Nameoki area is dependent solely on pumps. There's no doubt that storm water got into the sanitary lines, but these people never had the trouble of backups before."

Mayor Davis asked what would have happened if the occupants of the house had set the plug in their basement drain.

Other Storm Water Damage
Whitmer replied that he had looked into the matter thoroughly and learned that others living in the area, including the residents next door, had drain plugs in place and still had a backup of storm water, but no sewage. City dependency on pumps at times of high water stages of the Mississippi river was brought out by Alderman Steve Busarich, who said the Nameoki area

Zone Proposal For Pontoon Rd. Tract To Be Considered

Granite City council members will agree to this, especially since the council is planning committee changes and it would be hard to determine what another committee might do," Alderman Vesel said.

Under the proposal suggested by the Planning Commission, the 200 foot buffer strip would be zoned R-4, while an area east of the strip would be zoned C-2 commercial for the shopping center and a service station, and a tract to the rear of the shopping center would be zoned R-5 to permit multiple housing units for apartments.

At a meeting last night of about 12 Vesel avenue residents, Eighth Ward Alderman Vesel and Ford Johnson and Atty. Randall Robertson and Leo Kozzen, representing the developer, no objections were raised to a proposal for a delayed development of the buffer strip. It is to be sealed to provide a 200x1200-foot play area until such time as the duplex dwellings are constructed. This would permit immediate development of the 37 1/2-acre tract owned by Doris E. Gilliam, is on the north side of Pontoon road between Cloverview subdivision and A-10 and Southern Railroad track, east of the city limits. The development is being planned by Leo Wolf, developer of Lueders Park Estates subdivision off Fehling road in the city.

The city presently is in the process of introducing bills to control zoning of areas within 1 1/2-mile of the city limits.

Coulter Rites Tomorrow;

Granite City's Mother

Funeral services will be conducted at 2 p.m. tomorrow at the Oakdale Presbyterian Church for Mrs. Anna Coulter, 90, mother of Misses Lucille and Claudine Coulter, who live at 3161 Carlson avenue. Miss Lucille Coulter is a mathemat. assistant at the Granite City school district.

Mrs. Coulter, a lifetime resident of Granite City, died last night. She had been an invalid and in poor health for many years. Her husband, W. S. Coulter, preceded her in death in 1959.

Surviving, in addition to the daughters here, are a son, Stanley Coulter of Oakdale, three grandchildren and one great-grandchild.

Skid Causes Accident

Extensive damage resulted from a collision at the turn near the eastern end of the McKinley Bridge at 8:10 a.m. Wednesday. The westbound auto of Charlotte Abernathy, 4783 Warneck avenue, skidded sideways, its left rear striking the left side of the eastbound car of Steve Cassell, St. Louis. No one was hurt.

Your Governor Reports by OTTO KERNER

The year 1961 was a year of many decisions vital to the welfare of Illinois. The new year of 1962 may well be one of even greater decisions as we strive to find solutions to many of the complex problems facing our state.

It is my fervent and sincere hope that, for the residents of Illinois, 1962 will be a happy and prosperous year.

We are privileged to live in one of the most wealthy and vigorous states of a great nation. Our state is a part of a precious national heritage—a heritage not

easily gained, nor easily sustained. As long as totalitarianism and tyranny exist in the world, this heritage is in constant danger.

As another New Year approaches, let us resolve to reaffirm our belief in the ideals of freedom, unity in our sense of citizen responsibility, and endeavor always to secure for ourselves and those less fortunate than we, the essentials that can bring the good life we enjoy.

In doing this, each of us will play an important role in securing the total peace we all seek for this new year.

that's THE LAW

A PUBLIC SERVICE OF ILLINOIS STATE BAR ASSOCIATION
IN COOPERATION WITH THIS NEWSPAPER

WHAT DO YOU KNOW ABOUT "BALIMENTS"?

Can I collect from the restaurant owner if my hat is stolen from the hat rack? If my young brother uses my car on a date and injures someone while driving, am I liable?

These and similar questions are often asked of lawyers by worried clients and curious friends. The answers are found in a special branch of the law known as the "law of baliments."

In everyday language, a baliment is a loan. Generally, a baliment occurs when possession of personal property is given to another (the "bailee"), but the ownership remains in the lender (the "bailor").

Baliments can be for a fixed period of time or for indefinite term, and they can be for pay or free. Baliments relate to a special "personality": that is, tangible property, not attached to land.

Possession Must Pass

Baliments give rise to special rights and duties. A few commonplace examples may help to illustrate some of them.

First, a baliment does not occur unless possession of the property is delivered to another. So, when you hang your hat on the rack in the coffee shop, you have not delivered possession to the owner, and, therefore, you cannot hold him responsible as balilee if it is gone when you look for it.

However, if you leave your hat with a hat-check girl, then she and her employer become the baliees of your chattel.

Presumption of Negligence

The balilee is under a duty to return the property in as good condition as when he received it. If he fails to do so, then the law presumes that he was negligent in injuring or losing the property, and the burden shifts to him to prove he is not at fault.

For example, if you leave your

Drainage, Zoning Action Can Make 1962 A Year Of Great Progress

Progress . . . 1962. The word can keynote the coming year and many more years if the Quad-City community lives up to its potential . . . if it responds with action.

National economists say 1962 can hardly help being a prosperous year. This is generally true for the Quad-Cities, as brought out in the Press-Record's ninth annual business review and forecast elsewhere in this issue. But the comments by business leaders also cite the effect of local action on future prosperity — particularly in two fields, drainage and zoning.

Residential, commercial and industrial growth of Granite City has been halted by state order until sewage treatment plans are adopted; approval of the \$9,250,000 drainage-pollution program under study by the city council can end the ban and lead to solution of all other drainage problems that inhibit community expansion.

Industrial development, necessary for adequate job opportunities, is curtailed by lack of zoning for unincorporated areas; a zoning commission is to submit recommendations to the County Board of Supervisors this year.

Action on drainage and zoning can make 1962 the year that unlocked the door to a truly golden era in this section of the Illinois Metropolitan Area.

A look back is essential to any look into the future. The year's ending affords an appropriate time. Though there were setbacks, the area made many gains in 1961.

Business developments—The Royal Crown Cola Co. plant began operation. Johns-Manville Corp. bought the Celotex asphalt roofing plant and the Nestle Co. announced rebuilding plans after a tragic explosion halted production of instant coffee.

New quarters for the Madison bank and new stores were built. The community's first stock brokerage office opened, and a marine radio-telephone station serving river vessels throughout the midwest moved from St. Louis to the Quad-Cities as a better location. Direct distance telephone dialing began, and the Wagner Bottling Works expanded to an adjacent building.

Store, church and home remodeling was extensive. Led by Granite City Steel Co., industries modernized and expanded, with new products, new contracts and higher employment forming a firm base from which to begin the new year.

Governmental developments — Activities increased at the Engineer Depot, and a federal club was established in Madison county. Madison fire and city halls were remodeled, and Granite City fire insurance rates were reduced.

Classrooms were added to the Wilson and Maryville grade schools, a second Sacred Heart school was completed and a Granite City high school vocational shop wing was occupied. Madison avenue and 20th street were widened and repaved. McKinley Bridge remodeling was completed, work continued on Madison-Venice storm water drainage, a Nameoki township hall was completed, a Granite City war memorial fountain was created. Venice park shelters were erected and downtown lighting was made brighter in Granite City and Venice.

A county juvenile home was planned and then deferred due to financial woes, which also plagued cities. Sewer breaks proved costly to Granite City, the Woehler Corp. left after citing sewer trouble. Granite City received a detailed report on governmental efficiency and increased the size and role of the City Planning Commission. All mayors were re-elected, but the Granite City township supervisor was defeated and control of the levee board changed.

A new justice of the peace-police magistrate system went into effect, the township school treasurer system was eliminated, a uniform Illinois minimum drinking age of 21 was set, the state sales tax was raised and applied to Missouri sales for Illinois delivery, and the levee district was limited to bond issues by referendum after 1962. Police were plagued by major robberies and burglaries, and increased attention was given to civil defense and fallout shelters.

Since progress is not limited by calendar years, many 1961 developments will see fulfillment in 1962, adding luster to the coming year's record of accomplishments.

Construction will include a new Granite City post office, buildings at the Southern Illinois University campus, additions to Coolidge junior high school and Louis Baer grade school, a Venice street department garage, a Lee Wright Homes recreation center, 100 apartments for the elderly in Granite City, additional electric and gas service facilities, improved McKinley Bridge lighting. Mitchell public water service, a Granite City animal shelter, flood protection improvements and further work on the low water dam.

The state is acquiring right-of-way for the riverfront highway, and a unified metropolitan transit system is being studied. Venice will put a new fire truck into use.

The Bi-State Development Agency hopes to expand its harbor terminal here with a huge grain elevator, and the Tri-City Port District plans to set up warehouses in Madison and barge loading and unloading equipment at the local port.

Less certain, but equally vital, are many other items of unfinished business. Headed by drainage and zoning, and the related pollution abatement and industrial growth, the list also includes:

Water fluoridation, approved overwhelmingly by Granite City voters in 1961 but still stalled in the city council.

Forty-percent levee board membership for Madison county.

Neighborhood improvements, and other urban renewal.

Identical city-county precincts and polling places.

More off-street parking; further street and highway work, including widening of Nameoki road and the city portion of West Pontoon road; and attention to factors causing traffic delays.

Firm, adequate county and city tax rates.

Complete uniformity and enforcement of tavern closing hours, following action in 1961 by the city of Venice and Madison county.

Continued efforts to establish a state park, recreational area and wildlife refuge at Horseshoe Lake.

Consolidation of quarters for semi-public social agencies.

State authorization for testing of suspected drunken drivers.

An organizational blood program.

Funds for an Illinois Metropolitan Area study of regional airport needs.

Fire hydrants and fire protection for unincorporated residential areas.

Increased citizen interest in governmental affairs.

General adoption of auto safety belts.

Removal of remaining trolley rails.

Continuation of downtown postal services, and beautification of the site after zoning of the existing post office.

Extension of city boundaries.

Employment of an expert city planner by Granite City or the three cities.

A center parkway on Wabash avenue.

Civil service for sheriff's deputies.

Opposition to further federal intervention in determining plant locations.

THE PASTOR SPEAKS

REV. PAUL A. EVANS
First Assembly of God Church

Seven hundred and forty-two years before Christ, the prophet Isaiah comforted Israel with this message of hope: "Behold, a virgin shall be with child, and shall bring forth a son; they shall call his name Immanuel, which being interpreted is, God with us."

Seven hundred years later, a carpenter of Nazareth lay down to sleep one night with a burden he felt he could not bear, for he thought the girl he was to marry had been unfaithful to him.

"But while he thought on these things, behold, the angel of the Lord appeared unto him in a dream, saying, Joseph, thou son of David, fear not to take unto thee Mary thy wife, for that which is conceived in her is of the Holy Ghost. And she shall bring forth a son, and thou shalt call his name Jesus; for he shall save His people from their sins."

Nearly two thousand years ago, three mad men who had seen a star in their land far east of Jerusalem came to the city which was supposedly the very seat of divine truth, and asked where they might find the savior of the world who had been born in a manger.

"Bring the pagan to the Redeemer King," Jesus Christ proclaimed for him the living Word of God in its current power.

"The Virgin brought forth a son, and she called his name Jesus; and He still saves people from their sins."

Granite City PRESS-RECORD
Page 4 Thurs., Dec. 28, 1961

America To Operate Four Days Next Week

The local American Steel Foundries plant which is in production four days this week will be in operation four days next week. Tuesday through Friday, it was announced today by Works Manager A. P. Steinhauer.

Steinhauer added that an increase in orders from railroads looks promising and plans already under way to schedule work for the week of Jan. 8.

"The days the plant will be in operation that week will not yet have been scheduled," he added. "We'll know more next week," the works manager said.

Aliens Reminded To Register Next Month

Quad-Cities area aliens are reminded of the Jan. 31 deadline for registration with the U. S. Attorney General's office by Wm. T. Flagg, Chicago, district director of the Immigration and Naturalization Service.

Flagg said aliens may obtain registration forms at their local post office. All aliens in the U. S. as of Jan. 1 are required to list their name, address, date and place of entry, date and place of birth, nationality and registration number.

Parents or legal guardians of alien children under 14 years of age must submit the report for them, Flagg said. Failure to register carries a penalty of possible fine and deportation.

SINCERE WISHES FOR PROSPERITY IN '62

Our entire management and staff hope that this New Year will be one of greater abundance and happiness than ever before, for you and yours.

Suspect In Beating Still Held By County

Robert Henderson, 34, of 1911 Edwardsville road is still in custody today at the Madison county jail, eight days after he allegedly beat his brother and mother at their home with his fists, a hammer and telephone. There is no record of a charge being filed, Chief Deputy Joseph Kellerman said.

The injured brother this week attributed the incident to Robert Henderson's drinking. Virgil Henderson, 47, said he had not drank beer brought by his older brother, as a deputy had reported. Virgil Henderson had been visiting neighbors and was attacked after returning home, he related.

Committee Reviewing 1961 Award Nominees

Members of the Associated Retailers' Civic Achievement Award committee are meeting this afternoon at the Elks Club to review nominees for the 13th annual award. Wm. L. Brown, Madison School Superintendent, is chairman.

Nomination of recipients for the 1961 award closed yesterday, and the task of the committee this afternoon is to reduce the field to two to five candidates. Last year's joint winners of the award, given for outstanding community service, were H. D. Karandjeff, board chairman of the Granite City Trust & Savings Bank, and E. C. Schmitt, area manager of Illinois Power Co.

The date for the annual awards banquet has not yet been set.

Assessors Meet Today At County Courthouse

The annual winter meeting of the Madison county board of assessors started at 10 a.m. today in the supervisors' room at the courthouse in Edwardsville. Dan McGee, county treasurer and supervisor of assessors, is in charge of the meeting, which is being devoted to the general area of real estate assessment. A meeting covering personal property assessment will be held in April.

License Issued

A probationary driving permit has been issued to Harold W. Ballentine, 1601 Third street, Madison, it was announced today from the Springfield office of Secretary of State Charles F. Carpenter.

Teen Town 'Snow Princess' Dance Set

"Wonderland By Night" is the theme of tomorrow night's Granite City YMCA Teen Town's 10th annual "Snow Princess" dance at the YMCA from 8-11:30 p. m.

Highlighting this year's dance will be the crowning of the Snow Princess. The 10 candidates for the title are: Arlette Alexander, Pamela Dyer, Andrea Gasparovic, Mary Alice Christian, Donna Trgovich, Jane Kries, Marilyn O'Neil, Carol Krivi, Terry Griffith and Judy Rollins.

Gary Geroff, Teen Town council president, has announced that all Teen Town members will be admitted free and all Granite City non-members are invited. Non-members will be charged 50 cents per person. Music will be provided by an orchestra, said Geroff.

Crowning the queen between 10 and 10:30 will be Mrs. Marie Spengler, teenage director. The retiring queen is Diane Spearoff. Mistress and master of ceremonies will be Jean Fryzko and Phillip "Flip" Bagley.

The 11 escorts for the 10 candidates and retiring queen are: Brett Bjorkman, Roger Bloodworth, Sam Fazio, Walter Gasparovic, Geroff, Bob King, Doug Little, Walter Mathis, David Sparkes, Quentin Hoover and Vic Buehler.

Mrs. Sarah Kellams Succumbs At Age 92

Mrs. Sarah Jane Kellams, 92, of 2631 Sheridan avenue died at 2:30 a.m. today at St. Elizabeth Hospital, where she had been a patient since being stricken with a heart attack five days ago.

Mrs. Kellams had been a resident of the Madison Nursing Home for the past 10 years, but had been in good health until the attack. She was apparently recovering well, the family said, but developed pneumonia.

She was born in Shannon county, Mo., and had been a Granite City resident 50 years. Her husband, Kinder Kellams, preceded her in death in 1918.

Survivors are a son, Oscar Dewey Leavine, Granite City; a daughter, Mrs. Theodore (Elizabeth) Swigert, Granite City; 13 grandchildren, 32 great-grandchildren, and one great-grandchild.

Funeral arrangements are given in the obituary column.

5 Granite Cityans Face Burglary Charges

Grand jury action is scheduled for next month in the case of a \$100 break-in last Nov. 28 at a Worden restaurant for which five Granite Cityans have been charged with burglary and larceny on complaints filed by the state's attorney's office.

Facing the charges are Jerry Allen Hall, 20, of 2021 Dewey avenue; Herschel Hicks, 19, of 2254 Washington avenue; Leonard Crone, 18, of 836 Niedringhaus; Dan Farley, 17, of 2208 Nevada avenue; and Charles T. Wofford, 17, of 2224 Bryan avenue.

Richard Allen, investigator for the state's attorney's office, said the quintet is charged with breaking into the Darrette Cafe on Main street in Worden, operated by Dorothy Holland, worden. Several coin-operated machines and the cash register were broken open and cigars and cigarettes taken.

Bonds for each of the youth was set at \$2000.

SCREENS & STORM INSERTS REPAIRED GRANITE CITY GLASS, 18TH & EDISON.

Granite City PRESS-RECORD Funds To Be Invested

Between \$8000 and \$15,000 per year in interest can be realized from short term investments of idle funds, East Side Levee & Sanitary District Treasurer J. Kent of Granite City reported to levee trustees last night during their regular meeting in East St. Louis.

Kent, who said he has been studying levee district finances for the past month, added that most of the invested funds would come from the district's bond sinking fund—monies realized from bond issues but not yet needed on the actual projects—and that arrangements for the investments are being completed.

He added that he had "checked out with banks in my area," but did not say where the funds would be placed on account.

Levee board member Thomas Hennessy asked Kent, a local realtor, if such steps had ever been taken previously. Kent replied that he could find no such instance in checking financial records of the district. All deposits were previously made in non-interest bearing accounts, he said.

The levee trustees referred to the engineering committee a letter from the Venice city council in which the city reserved the right to "further study cost figures" if communities surrounding it build their own pollution abatement facilities.

The levee district has plans to finance and construct sewage disposal and treatment plants and connecting sewers within its boundaries.

Local 16 Aids Orphanage

A fund for the Maryville orphanage raised by members of United Steelworkers Local 16 at the Granite City Steel Co. open hearth department has reached \$92. It was reported this week by Everett Moelen. He was joined by Francis Cato, Stanley Martin and Mike McJaski in collecting the contributions as a holiday season gift to the orphanage home. Several hundred members of the local joined in the project.

EARLIEST LAW

Earliest law preserved today is the one developed by Hammurabi, ruler of Sumeria, about 2,000 years before Christ. Hammurabi's code set forth a complete set of laws.

Social Security Tax Rate Increases Jan. 1

Effective Jan. 1, a total of 3 1/2% will be deducted from the worker's paycheck for Social Security costs, instead of the present 3%, with a similar increase in the amount paid by the employer.

The tax applies to the first \$4800 earned during the year, and will increase the maximum deduction from \$144 yearly to \$150. Again, the figures are the same for the employer.

The increase for the self-employed is greater, going from 4.5% to 4.7% of the salary. Self-employed maximum tax will go up from \$216 annually to \$225.

The increases are due to changes in the Social Security law which were passed last June, providing added benefits under the program.

New features of the law include option to retire at 62 instead of 65, with smaller retirement checks; increased benefits for aged dependent widows; and an increase in the monthly benefit minimum from \$33 to \$40.

SACRIFICIAL DANCE by African tribesmen following human sacrifice of a young native is depicted in this scene from the film of the actual event. The dancing went on five hours after the death of the youth.

African Human Sacrifice Film To Be Shown Here

The story of a human sacrifice will be told in both words and pictures here Monday night by an Assembly of God missionary to West Africa who says he is one of three white men ever to witness the primitive ceremony.

Rev. Ernie Eskelin will show his film, "African Adventure," at the First Assembly of God Church, 24th street and Grand avenue, at 7:30 Monday night, giving an eyewitness account of the rites.

Rev. Eskelin made his first trip to Africa last year, holding nine meetings there. He plans to return this spring to carry on the Assemblies of God missionary work there.

The sacrifice of a 20-year-old native tribesman to a gigantic python "snake god" described by the missionary is believed to be the first such ritual in five years, Rev. Eskelin says. Other missionaries have reported such ceremonies, but not recently.

Charged With Spears
The missionary, a former Detroit physical culturist, said he witnessed—and filmed—the human sacrifice from a distance of not more than 200 yards. He said the natives charged toward

Roca Gold Chapter Pledges Two Youths
Two new pledges have been announced by the Gold Chapter of Roca, They are Ronald Yates and Forest Mueller.

The regular meeting of the chapter was held at the Big Top Tuesday evening with Quinten Hoover, president, in charge.

Plans were made for a New Year's Eve party in the home of James Harsh, 2361 Lynch avenue, beginning at 8:30, and for a car wash Saturday.

REV. ERNIE ESKELIN

visited to hear Rev. Eskelin, who will conduct services at 10:45 a.m. and 9 p.m. Sunday, the latter a New Year's Eve watch service, as well as the Monday program.

Rev. Eskelin considers his film of the snake god rites which occurred over 100 miles from the nearest city, especially valuable because they may have been the last. With the progress of Christian missionaries, he feels, the African tribesmen may never again deem it necessary to offer a human sacrifice.

Two-Car Collision
Two cars collided at West 27th street and Grand avenue, according to a report received at the Granite City police station Tuesday afternoon. Drivers were Mrs. Joyce Coffman, 1722 Grand, and Albert J. Zimmerman, 33 East St. Louis. There were no injuries, police said.

Teenage Dance Canceled
Lack of interest on the part of teenagers has resulted in the cancellation of a New Year's Eve dance which was planned at the Lincoln Place community center the night of Dec. 31, according to Miss Pat Mega, director of the center's youth program.

The dance was to have been sponsored by the Granite City park district, but there was not enough response from teenagers to defray expenses, Miss Mega said.

Rev. Paul A. Evans, pastor of the church, said the public is in-

GC Pays For Tractor Repair; Gets Back \$1050 In Fees

Payment of \$1593 to Melvin Pashea for damage to a tractor used in maintenance of the city dump was included in a \$7295 bill list approved Tuesday night by Granite City council members.

The bill, which has been under study by the council since last summer, also resulted in \$1050 being paid to the city by Pashea for pinball and music box city licenses, his distributor license for the 1961-62 fiscal year and a compromise settlement on the amount owed several years on the purchase of city-owned quonset huts.

As a result, Pashea, who said his tractor repair bills totaled the \$1593 figure because of mud conditions and pushing and pulling city trucks at the dump, received \$543 from the city. The bill had been under debate because of differences in details given by Pashea and his workers and city sanitation department employees on the pushing and pulling of trucks through the mud.

The council last summer had approved payment of the full amount, but the check was held up by the Finance committee with council consent.

Licenses Paid To City
The amounts paid to the city by Pashea were \$430 for music box licenses, \$330 for pinball machine licenses, \$20 for the 1961-62 pinball distributor license and \$250 compromise settlement on

Charles Yates Funeral Changed To Tomorrow

Funeral services for Charles Yates, 5148 Lakeview drive, originally scheduled for this morning, will be held tomorrow morning at St. Elizabeth Catholic Church.

Yates, 65, was stricken by an apparent heart attack early Christmas Day and died a short time later at St. Elizabeth Hospital. He was a retired General Steel Castings Corp. molder.

Services were delayed to a morning time for arrival of a son, Lester, from Bellflower, Calif., the family said. New funeral arrangements are given in the obituary column.

Miss Susan Fruit And Jack Roberts Are Engaged

The engagement of Miss Susan Baird Fruit, a daughter of Mr. and Mrs. Roy H. Fruit, 109 Allen avenue, Edwardsville, and Jack Edward Roberts, of this city, was announced this week by her parents.

Miss Fruit, a graduate of the Edwardsville high school with the class of 1957, received a Bachelor of Arts degree from the University of Colorado last June, where she became a member of Delta Delta Delta sorority and is now teaching in Denver, Colo. She is a granddaughter of Mrs. Homer Baird and the late Mr. and Mrs. John A. Fruit, all of Edwardsville.

Mr. Roberts' parents are Mr. and Mrs. David G. Roberts, 2401a State street. Following his graduation from the Granite City high school, he attended Eastern Illinois University where he received a Bachelor of Science degree in Political Science. He is a member of Sigma Pi fraternity. The prospective bridegroom is the grandson of Mrs. Edward Cammer and the late Mr. and Mrs. David G. Roberts, of Granite City. His parents operate The Den at 2401 State street.

JOE'S DAUGHTERS

HOLD MEETING
Joe's Daughters, Bethel 43, held a scheduled meeting Tuesday evening with the recently installed Honored Queen, Miss Lana Riker, presiding.

A special meeting will be held Saturday evening at which time the Bethel will be honored by the official visit of Mrs. Margaret Adamatis, grand guardian, and Homer Woods, associate grand guardian of Illinois. The official homecoming of Mrs. Lida Theis, junior past grand guardian of Illinois, also will be observed and a reception will be held for Miss Margaret Champion, grand representative to Maryland.

The meeting will be held at 7 o'clock and dancing and refreshments will follow. All past honored queens, guardians and active members are urged to attend.

Escorted and honored at Tuesday's meeting were the Junior past honored queen, Miss Mary Alice Christian, Miss Margaret Champion, grand representative to Maryland, Mrs. Nell Baskettes, guardian, Dr. E. H. Theis, associate guardian.

AMERICAN LEGION AUXILIARY MEETS

A meeting of the American Legion Auxiliary, Post 113, was held last night with Mrs. Kitty Morris, president, in charge. Harold Summers, Legion junior vice-commander, reported on the sale to tickets for the New Year's Eve party and the party held Dec. 23 for the children.

Mrs. Mildred Rees gave her report on a visit to the Edwardsville Sanatorium last week and a party for the veterans there. An essay contest for high school students was discussed and also the prizes to be awarded and a letter of thanks was read from an orphanage in Pusan, Korea, for a care package sent by the group.

The remainder of the evening was spent at games and prizes were awarded to Mrs. Alma Klaus, Mrs. Reese, Mrs. Cecelia Malotki, Mrs. Helen Qualls, Mrs. Carmen Toth, Mrs. Ethel Peitl and Miss Brenda Morris. Refreshments were served by Mrs. Morris and her officers.

DELMAR REBEKAHS

PLAN INSTALLATION
Rebekah Lodge 786 met Tuesday evening at the hall in Madison with Mrs. Verna Wilman, noble grand, in charge.

A short business session was held, and plans were made for the formal installation of officers Jan. 9, which will be closed. Fifteen members and three guests were present at the meeting.

FAMILY PARTY

Mr. and Mrs. Ralph Peck, 1656 Fourth street, Madison, entertained guests at a family dinner party during the holidays. Those present were Mrs. Bernadine Hammock and daughter, Paullette, and Mr. and Mrs. Robert Beckett.

Royal Arch Masons Install Officers Tomorrow Night

Granite City Chapter No. 221 of the Royal Arch Masons will hold its installation of officers tomorrow night at the Masonic Temple, 20th street and Cleveland bldg., at eight o'clock.

Installing officers will be Ben H. Hall, right excellent deputy grand high priest; Ralph F. Hornbuckle, right excellent grand scribe; Andrew J. Warner, excellent grand master of the Third Vail of the Grand Chapter of Royal Arch Masons of the State of Illinois; and J. Emerson Miller, a member of the board of Grand Examiners.

Members of the East St. Louis Commandery No. 81, Knights Templar will act as escorts for the ceremonies which are open to all Masons, their families and friends. Clarence F. Hoffman is the High Priest.

Officers to be installed are: Luther R. Smith, high priest; John L. Wood, king; Thomas P. Byrby, scribe; William J. Mehl, treasurer; George Malotki, secretary; Walter R. Buford, captain of hosts; William P. Ridings, principal journeyman; and Richard Copeland, royal arch captain.

Earl F. Cox, master third veil; Charles E. Shelton, master second veil; Howard L. Prewett, master first veil; Paul S. Pender, chaplain; Earl E. Cotter, steward.

Need For Fire Prevention Code In GC Stressed By SIU

(This is the 51st in a series of articles based on a special study of fire prevention code by the Southern Illinois University.)

A step up in fire prevention code in Granite City is urged by the SIU team of experts, who point out the activities in this field are "generally inadequate."

An ordinance establishing a fire prevention code, recommended by the National Board of Fire Underwriters, was submitted to the council by Assistant Fire Chief Curtis Donley and was placed on first reading in October 1960, but no further action has been taken.

The SIU report points out the city's fire prevention records are inadequate, and while new buildings are inspected by the department, there is no regular inspection of all commercial and industrial buildings in the city.

"The study experts recognize the lack of a fire prevention ordinance and urge that a comprehensive one be enacted."

"Building Records Needed" "Basic fire prevention records should be established in the office of the assistant chief. A folder should be set up for every important building in town in which all pertinent data on the property may be kept."

"The necessary forms are—
"A building record to contain basic data on the construction, fire protection equipment, hazards in the building, location of the utility shut offs and a record of inspections made by the fire department and fires occurring in the building."
"An inspection report which would be a check list designed

to give the man who is not a specialist in fire prevention an outline of locations, hazards and conditions which should be checked.

"Notice of fire hazard, a multiple copy form designed to formalize notification of violations which have been discussed orally with the property owner."

"Liability notice which would be sent a property owner when fire hazards constituting violation of the fire prevention ordinance or other ordinance concerning fire safety has not been corrected within a reasonable period."

Residential Inspections
"A program of voluntary residential fire prevention inspections could be set up."

"The program should be carried out only after a thorough educational campaign through the press and in the schools. It could be tied in with the annual Fire Prevention Week campaign. The program should be stressed as a service to the householder and a benefit to the city as a whole, and not as an invasion of private property rights."

"The fact that it involves no compulsion or threat to any person or property owner should be emphasized. The fire companies making the inspections should be given special instructions in dealing with the public and a brochure on home fire safety should be obtained for distribution."

"At least three-man or better, five-man, companies should be used so that one man can stay with the truck in continuous radio contact with headquarters while crews of two men make the inspections."

"Detailed plans of all the large industrial plants should be developed, filed and kept up to date. These records should include more information than is shown on Sanborn maps and should include all information on walls, entrances and exits, stairways and passages and water services which will lead toward most effectively fighting a fire in the property."

Aerial Photographs Useful
"An aerial photograph of the property would be useful. All information on the plants internal fire fighting force, including names of personnel, available equipment and facilities, such as hydrants, standpipes to sprinkler system and valves and appurtenances, should be included on the forms."

"The fire prevention information should be used extensively in the training course in the industrial plant or business

Airman Junior Mathis In Maintenance Course
Airman Junior C. Mathis, son of Mr. and Mrs. James C. Mathis of 4800 Hill avenue, has been assigned to the U.S. Air Force technical training course for facilities and utilities maintenance specialists at Sheppard AFB, Texas.

Airman Mathis, who has completed his basic military training at Lackland AFB, Texas, was selected for the advanced course on the basis of his interests and aptitudes. He is a graduate of Granite City high school.

SOCIETY

MISS NORMA JEAN KESTER, fiancée of Norman H. Kinder Jr., whose parents reside at 1929 Rhodes street, Madison. The engagement of the couple is announced by the bride-elect's parents, Mr. and Mrs. Walter G. Kester, 2505 Lincoln avenue.

Kester-Kinder Engagement

Mr. and Mrs. Walter G. Kester, 2505 Lincoln avenue, have just announced the engagement of their daughter, Miss Norma Jean Kester, to Norman H. Kinder Jr., whose parents, Mr. and Mrs. Norman H. Kinder, reside at 1929 Rhodes street, Madison.

Miss Kester, a 1957 graduate of the Granite City high school, is employed by a secretary by the Markley Plumbing & Heating Co. The bride-elect graduated from the Madison high school and subsequently graduated from St. Louis University where he is now a second year student in the School of Law. He is a member of Phi Delta Phi fraternity and holds the office of exchequer in the fraternity.

PAIRTY AT BROOKS WEIR HOME

Guests in the home of Mr. and Mrs. Brooks Weir, 3276 Wabash avenue, Wednesday were Mr. and Mrs. Clifford Baker and children Charlie and Katherine, who are spending the holidays with Mrs. Baker's parents, Mr. and Mrs. Patrick Hughes, former Granite Cityans now residing on the bluff road near Edwardsville.

Mrs. Baker, the former Virginia Hughes, was employed at the Engineer's Dept. before her marriage. During the afternoon several additional guests, who were her co-workers there, were invited to greet her. They were Mrs. Edna Stevens of East Alton, Ms. Catherine Gruber of East St. Louis, Mrs. Toni Strain, Mrs. Ruth Pankay and Miss Mary Cantler. A dessert course was served by Mrs. Weir.

MR. AND MRS. JAMES D. MOSER, who were married Tuesday afternoon at Concordia Lutheran Church, 23rd street and Grand avenue. The bride is the former Loretta Reeves, a daughter of Mrs. Alene Reeves, 2161 Benton street.

Miss Loretta Reeves And James D. Moser Wed Tues.

In a holiday setting of poinsettias, evergreens and candlelight Miss Loretta Reeves, a daughter of Mrs. Alene Reeves, 2161 Benton street, was married Tuesday to James D. Moser, a son of Mr. and Mrs. Elmer Moser of Rosholt, Ill.

The ceremony took place in the late afternoon at Concordia Lutheran Church with the pastor, Rev. Arvin Twietmeyer, officiating. The bride was given in marriage by her uncle, Merle Hickman of Carbondale. She wore a floor-length gown of white lace ruffled down the back. The sleeves were long and the round neckline was outlined with seed pearls and sequins. A crown of pearls and crystals held in place the bride's veil of tulle and she carried a bouquet of red and white carnations.

Miss Carol Reeves was her sister's maid of honor, and Mrs. Delores Krapp of Cassin Park, Ill., served as bridesmaid. Little Joan Krapp was flower girl. All wore red velvet dresses and carried white muffs to which were attached red carnations. Gerald Zimmerman of Tuxedo, Ill., served as best man with Wayne Krapp, as groomsmen and Merle Hodel and Ronald Aeschelmann of Rosholt as ushers. A reception was held in the new church hall directly after the ceremony. Both mothers were attired in emerald green wool dresses and both had white carnation corsages. Mrs. Reeves' accessories were green and sapphire blue. The newbrides will make their home at Rosholt, where the bridegroom operates a farm. The bride is a teacher in the Rosholt, Ill., school system.

Work On Route 151

(Continued from Page 1)

call for substitutes to be erected for two bridges. The \$70,000 at the Chain of Rocks canal and \$1,500,000 at the Mississippi River.

Highway construction for Interstate 270 during 1962 will consist of 1.58 mile of four-lane pavement costing \$2,748,000 from U.S. 67a west of Mitchell at the Federal Route 151 intersection; 1.58 mile of signs at that location to cost \$48,000; an interchange structure at the 270-151 intersection, \$430,000; a grade separation at the Illinois Terminal Railroad crossing near mile 5.74 to cost \$579,000; 80 mile of signs at Mitchell for Route 3, \$100,000; 1.60 mile of four lane pavement from Route 3 east to Mitchell to Route 111, \$425,000.

Signs for the \$1,758,000 roadways are to be installed at a cost of \$48,000.

Also along the new Interstate 270 roadway a local road grade separation is to be located west of Route 151 at a cost of \$178,000; a grade separation over the ITR Springfield line is to cost \$187,000; an interchange (structure only) will be erected at State Route 157 to cost \$332,000; a grade separation at Old Glen Carbon road to cost \$168,000.

Hill-Run Accident

Cecil B. Thomas, 57, Oak Park, Ill., died at Granite City, Ill., police yesterday at 5:10 p.m. that a dark colored car struck his northbound auto in the 2900 block of Yale drive and sped away. There were no injuries, police said.

MORE ABOUT Park Ice Rink.

(Continued from Page 1)

Illinois Association of Park Districts, held recently in Peoria, as submitted by member Milton Worthen, who is a vice-president of the state organization.

The board has invited a representative of a coil-operated locker manufacturer to be on hand at a future meeting. A similar firm has already presented its plans for new lockers in the park's pool bath house.

Defective Flue Causes \$25 Damage At Vacant House.

A defective flue was blamed for a fire Tuesday afternoon which caused about \$25 damage to a vacant frame dwelling at the rear of 2716 Denver street, where the owner, Joseph Reeves, who lives in a house on the front of the lot, had built a wood fire in the coal heating stove. Reeves said he had built the fire to take out the chill as he cleaned the place for renting. The fire broke out in the walls of the concrete chimney. He said the previous occupant had used an oil stove in the living room and the three-room frame structure.

Firemen from the West Granite station extinguished the blaze. The fire was less than a block from the early morning conflagration which 13 hours earlier had destroyed two homes at 2804 Denver street, causing an estimated \$7300 damage.

Small Explosion At Reilly Tar & Chemical

A small explosion occurred at 10:15 p.m. yesterday at the Reilly Tar & Chemical Corp. plant, Edwardsville road and the railroad tracks, causing an unknown amount of damage.

Firemen, who were at the scene for 30 minutes, said that the explosion and fire broke out while a change was being made from No. 3 to oil fuel on furnace No. 3. A naphthalene tank caught fire and the lines and insulation around it.

Paul Gauert, plant superintendent, told the Press-Record today that the loss was small but undetermined until insurance men arrive at the scene.

NEED GUTTER REPAIRS? CALL DOUGLAS, TR. 6-2988.

Burglaries At Madison School, Route 67a Tavern

(Continued from Page 1)

Theft reports in the Quad-City area this week included break-ins at Madison high school last night and a tavern on Missouri avenue, Route 67a, the previous night. A purse-snatching and wallet theft also were reported.

At the school, articles reported missing so far are a table radio, two keys to a stamp machine and two keys to a pencil machine, all located in the secretary's office; and a desk pen set and a light blue record player, kept in a music room.

Entrance was gained by breaking a door window on the south side of the cafeteria. Smuggles in interior doors were broken by the intruder or intruders, who ransacked papers and other materials in the principal's and secretary's office, a workshop on the first floor and a music room and a classroom on the second floor.

Burglars Loot Tavern

Burglars who smashed a glass in the front door to gain entrance looted the Curve Inn tavern, 2600 Missouri avenue, between 2:30 and 8 a.m. Wednesday, carting off \$150 worth of whiskey from the bar, two cases of beer, the contents of a cigarette machine and \$2 or \$3 in pennies from the cash register.

Owner Robert Gaborie told county authorities the cigarette machine was demolished by the thieves who not only cleared out the money box of an undetermined amount of cash, but also stole all the packages of cigarettes. An empty beer case was used to haul away the cigarette.

Left behind was a screwdriver apparently used to force open the machine. It was turned over to the sheriff's office.

Purse With \$250 Taken

A purse containing \$250 was stolen from the hand of Mrs. Ada Barber, 47, of 1004 Calumet street, Venice, on a grocery parking lot at Tenth and Illinois avenues, East St. Louis, at 6 p.m. Wednesday, police were notified.

A Negro boy, about 13 years old, grabbed the purse and ran toward Ninth street and St. Louis avenue. Officers were unable to locate him.

Mrs. Evelyn Fedora, 2405 Kilgus drive, physical education instructor at Central school, reported to police yesterday at 1:45 p.m. that her wallet was stolen from her classroom desk on Dec. 15. She said that it contained \$20 in cash, her driver's license and miscellaneous papers.

MAKING WEDDING PLANS? CALL LAZENBY, TR. 6-2978.

Farless-Hotson Engagement

Mr. and Mrs. Garian Farless, 2300 Gary avenue, are announcing the engagement of their daughter, Anne, to Richard Hotson, a son of Mr. and Mrs. Robert Hotson, 2256 Lynch avenue.

A February wedding is planned by the young couple.

GUESTS AT MITCHELL HOME

Mr. and Mrs. Floyd T. Mitchell, 3132 Colgate place, have as their guests for the holidays their son-in-law and daughter, Mr. and Mrs. Paul Landgren and son, Mitchell, of Champaign. Mr. and Mrs. Landgren are both graduate students at the University of Illinois.

Mrs. Landgren is the former Ann Mitchell.

HOME FROM HARVARD

Lucian W. Dressel, son of Mr. and Mrs. Lucian Dressel, 2615 Delmar avenue, is home from Harvard University in Cambridge, Mass., where he is a third-year student. He is a member of the Hasty Pudding and a Paul Iroquois club.

GC Civic League Opposes Payment By City Council

Opposition to the city's payment of \$1500 to Melvin Pashke, operator of a tractor used in a damage claim for a tractor used at the dump, was voiced last night by Granite City Civic League directors who plan to call upon the state's attorney's office for legal aid.

James Worthington, president of the league, said the payment, which was on the bill list at Tuesday night's meeting of the council, is being opposed because of differences of statements by Pashke and city employees as to whether the tractor was used to push and pull city sanitation trucks through mud at the dump earlier this year.

Worthington said he plans to call State's Atty. Sick H. Mudge to make an appointment either

Granite City PRESS-RECORD
Page 14 Thurs., Dec. 28, 1961

for tomorrow or at a later date. He pointed out that the league is taking issue with the council since the city employees have stated they know of no instance when a city truck was pushed or pulled by the tractor.

Pashke's employees have told council Finance Committee members of several instances when they used the tractor to aid the city's vehicles through the mud.

The Civic League president said legal advice is being sought to determine if the payment can be rescinded. The council gave its approval last summer, but actual payment was delayed by committee. The issue was debated during recent council sessions, and the mayor advised the council in April that since the bill was approved, he was going ahead with the payment.

The Civic League directors set Jan. 30 as the date for a public meeting at the time and

place to be announced later. In other action last night, the board of directors agreed to request primary votes in all city elections and to proceed with a program of working with County Clerk Miss Eulalia Hotz to update voter registration list in Granite City precincts.

Worthington said a preliminary check made recently showed about 200 registered voters had moved out of a First Ward precinct and were still on the registration list. He added that Miss Hotz is making progress in removing the names, but that to complete the job citywide, close cooperation is needed between precinct committeemen and the county clerk's office.

It is the goal of the league to remove the names of unqualified persons from registration lists for each of the township precincts in the city.

Defensive tackle Leo Nemejinski of the San Francisco 49ers is playing his 12th season of pro football. The 262-pounder formerly went to Minnesota.

25 YEARS AGO

The following items were taken from the files of the Granite City Press-Record

Dec. 28, 1936

Employees of the Commonwealth Division of the General Steel Castings Corp. last Thursday received Christmas boxes containing nuts, candy and fruit. Eighteen hundred boxes were given away.

Shortly after the first of the year, the American Steel Foundry will start its third furnace and employ about 300 additional men. It was reliably learned today. No official statement could be obtained.

It was understood that most of the 300 men already have been selected from former employees. The plant has now approximately 1250 men at work.

The annual open house which is held the first day of each year at the YMCA will be repeated.

Friday afternoon, Jan. 1, it was announced today by Elmer O. Hill, general secretary.

Starting promptly at 2 p.m. the program will include two basketball games featuring the Community high school reserves, the X Lizards and the Y All-stars vs. the DeMolays.

Following the cage games there will be three wrestling matches in which John Harsh, Charles Pelan, Elmer Rasche, John LaFleur, Kenneth Graham and Don Portell will participate. Marcel Tarris and "Digger" Neilsen will give boxing exhibition and there also will be a badminton exhibition.

Mr. and Mrs. Sam, Coburn entertained at their home Saturday evening in honor of the former's brother and sister-in-law. Mr. and Mrs. Harold Goble of Dallas, Tex. Other guests present were Mr. and Mrs. Walter Kow and ten of Collinsville, Mr. and Mrs. L. J. Bost Jr. and Mr. and Mrs. Ernest Rouland, Mr. and Mrs. S. Wilson and daughter, Patsy Mrs. Bessie Carty and Mrs. Prudence Rable.

Two poorly dressed men driving a new automobile bought 10 gallons of gasoline from a service station on Namokel road and then drove away without paying for it Christmas night.

According to the attendant, the two motorists fled toward Namokel while he was getting a quart of oil which they also ordered. Their car was covered with mud, he told police.

Adam J. Prusak has returned to Guntersville Dam, Ala. where he is employed with the Tennessee Valley Authority, after spending the Christmas holidays with his mother, Mrs. Julia Prusak, and his and Mrs. H. E. Davis, Madison.

Mr. and Mrs. Earl LaMar entertained with a family party Saturday night. Their guests included Mr. and Mrs. E. F. Ertel.

Mr. and Mrs. A. Truesdel, Mr. and Mrs. Alvin Smith, Mr. and Mrs. Vernon LaMar, Mr. and Mrs. W. Watkins, Mr. and Mrs. Paul Leonard, Mr. and Mrs. S. Wilson and daughter, Patsy Mrs. Bessie Carty and Mrs. Prudence Rable.

A new member, Fred Willis, took the obligation and was introduced at the meeting.

About 125 children attended the post's annual Christmas party, according to Junior Vice Commander Harold Summers, who reminded the membership of a New Year's Eve dance to be held at the post home Dec. 31.

A member, Fred Willis, took the obligation and was introduced at the meeting.

About 125 children attended the post's annual Christmas party, according to Junior Vice Commander Harold Summers, who reminded the membership of a New Year's Eve dance to be held at the post home Dec. 31.

Legion Needs 77 To Reach Member Goal

Membership in Tri-City Post 113 of the American Legion stands at 349, some 77 members short of a goal set by the post. Commander Joseph Gottfried reported to members at the post meeting Tuesday night.

A new member, Fred Willis, took the obligation and was introduced at the meeting.

About 125 children attended the post's annual Christmas party, according to Junior Vice Commander Harold Summers, who reminded the membership of a New Year's Eve dance to be held at the post home Dec. 31.

Mr. and Mrs. E. L. Copeland and daughter, Elizabeth Sue, returned Sunday from a holiday tournament with relatives in Malden, City's first opponent. In their Mo.

HOLIDAY GUESTS

Mr. and Mrs. Gene Lichter and children, Karen, Wayne, Warren and Gary, of Sunset drive had as guests over the weekend Mr. and Mrs. Clifford Lyman of Murphysboro, Ill., Mr. and Mrs. George Lichter and daughter Charlotte of Vergennes, Vt., and Miss Jeanne Snider and daughter Cindy and Susan of Orlando, Fla.

Mr. Snider and family will spend the remainder of the week with the Gene Lichters. Mrs. Lichter returned to Vergennes to spend this week with the Gene Lichters.

While visiting here, the Kroghs will spend some time with their son and daughter-in-law, Mr. and Mrs. Carl Krohn of East Lake drive.

HERE FROM CALIFORNIA

Mr. and Mrs. Elmer Sule and children, Rick and Cheryl, 2223 Pershing avenue, have as guests this week Mr. and Mrs. James Krutke sr. of Hermosa Beach, Calif.

While visiting here, the Kroghs will spend some time with their son and daughter-in-law, Mr. and Mrs. Carl Krohn of East Lake drive.

HERE FOR HOLIDAYS

Mr. and Mrs. Delbert Witham and children, Nancy, Joan, Jan and Lee Ann, of Sunset drive had as guests over the weekend Mrs. Cora Hunt, Ill., and Mrs. Marvin Rust and family of Cincinnati, Ohio, and Mr. and Mrs. Bill Watson of Berkeley, Mo.

HOLIDAY VISIT

Mr. and Mrs. Calvin Howard and children, Randy, Terry, Ron, Ronnie and Sherry, 2332 Edgewood avenue, visited Christmas Day with Mr. and Mrs. Jesse Howard of Litchfield, Ill., Howard's parents.

Mr. and Mrs. David House and children, Michael, Patrick and Marilee, 2840 Edgewood avenue, had as guests for Christmas Eve Harry Reedy, Peyton House and Mr. and Mrs. Ed Reedy.

West Granite

MRS. GUSTA PENDLETON
2223 Illinois Avenue
TR. 6-5027

Dr. Kathleen Jones Primary Sunday of Second Baptist Church met Tuesday, painting pictures of their Christmas. Singing was held, and a letter was offered by Mrs. Betty Lewis, Debbie Withers and Frances Welty. Mrs. Lewis gave a sermon and she and Robert McCord dramatized it, portraying the work of medical missionaries.

Mrs. Lewis announced that the group had exceeded its goal and reported plans to begin a three-month study of American Indians. Others present were Allen Newberry, Linda Barnett, Corky Burnett and a visitor, Dr. Lewis.

DEBTRIBUTE BASKETS

The Women's Missionary Society of Second Baptist Church delivered baskets for Christmas. They were financed by cash donations from members of the church.

Mrs. Lucille Thompson, president of the society, was assisted by Mrs. Dorothy Rains, community missions chairman.

Jaycees To Conduct Survey of Community

The Granite City Jaycees' community development survey will be conducted next week. Chairman Arthur Menendez reported at the organization's regular meeting at the Big Top Bowl last night.

With each Jaycee to hand out 10 survey questionnaires and some to be distributed to other local civic and fraternal organizations, a total of about 75 is expected to be completed.

The questionnaires, when completed, will give a sampling of opinions of local residents concerning what is good about the community, as well as what is wrong with it and what needs to be done to improve it, Menendez explained.

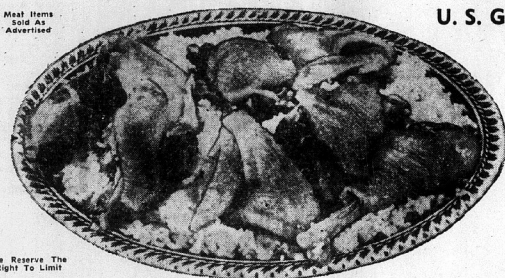

Reports also were given by Boyd Presley, chairman of the membership drive to add 100 members, reporting for Earl Dauter, chairman of the "Shot Gun" coupon book sale. The sale sold some 75 books have been sold so far, with sales to continue through January. Sales will be conducted at downtown and Belmore Village booths from 5:30-8:30 a.m. Friday and 10 a.m. to 2 p.m. Saturday. The booklets, containing coupons good for purchases at local stores will be on sale regularly at Graham's Book Store, Joe Hassler Insurance Agency, and the Excelsior-Leader Pharmacy and cleaners at 1811 Johnson road, Barnes said.

Thirty members attended the meeting, with the next one set for Jan. 3 at the Big Top Bowl.

HOLIDAY DINNERS AT JOHNSON HOME

Mr. and Mrs. Otto Johnson entertained at two family dinners in their home, 2017 Clark avenue, Christmas Day.

Members of their families attending a one o'clock dinner were: Mr. and Mrs. John Petri and children, Nancy and Elizabeth, Mr. and Mrs. Eugene Whitaker and son, David, Mr. and Mrs. Philip Kendle and daughters, Cindy and Connie, Mr. and Mrs. Robert E. Harris and daughters, Vicky and Patty, and Mr. and Mrs. Lee Ridgeway and sons, Darryl and Dennis (of Hannibal, Mo.).

The Johnson home was decorated in keeping with the Christmas theme, and the table centerpiece was a snow scene with evergreens, candles and reindeer.

Those attending a six o'clock dinner were Mr. and Mrs. Melvin James Johnson and daughter, Sherry, Mr. and Mrs. Al Johnson and children, Debra, Allen and Mike, and baby of the year, III, Mr. and Mrs. Dean McCrackin and children, Nancy and Craig, Mrs. Lee Vancovich and daughters, Kathy and Donna, and Mr. and Mrs. Clyde Westmoreland and daughter, Brenda, of Eganville, N. M.

FINAL 1961 MEETING OF INTERMEDIATE G.A.S.

The Vivian Wilson Intermediate Class of the Girls Auxiliary of Emmanuel Baptist Church met Tuesday evening at the home of Linda Lewis, 1640 Minerva avenue, for the final meeting of the year.

Christine Harris, program chairman, read missionary names from the prayer book, and Jo Ann Crews led the evening's devotion. A refreshment group singing was enjoyed and Jo Ann Crews accompanied at the piano.

The evening's program, entitled "The Perfect Gift," was presented by all the girls present and Linda and Ruth Davis read the Scripture.

The girls worked on their "forward steps" the procedure by which they advance in G.A.W. work. Refreshments were served by the hostess. The first meeting of 1962 will be held Jan. 9 at the home of the advisor and leader, Mrs. Peggy Smith, 2106 Woodlawn avenue.

HERE FOR HOLIDAYS GOING TO GERMANY

Pvt. Richard Hill, son of Mr. and Mrs. Jack Hill, 1111 Spring avenue, arrived home from Augusta, Ga., to spend the holidays with his parents and brother, Robert.

He will be here until Jan. 3, when he will go to Fort Dix, N. J., before being sent to Germany for 30 months.

FARE FAMILY DINNER

Mr. and Mrs. Frank Fare were the hosts at a traditional family Christmas dinner Monday in their home, 3313 Lydia lane.

Mrs. Fare used the seasonal theme in her home decorations with a tree and holly. The centerpiece of the dinner table was a Madonna dressed in keeping with the holiday theme.

Guests were Mr. and Mrs. Paul Duff, Mrs. Charles Lynne, Mr. and Mrs. Pete Kuehn and daughters, Diane and Judy, Mr. and Mrs. Joseph Klesh, Mr. and Mrs. John Klesh and son, John and Kenny, Mr. and Mrs. Raymond Libera and son, Jerry, of East St. Louis, Mr. and Mrs. Richard Duff and children, Richard and Pammy, Mr. and Mrs. Robert Fare, and Mr. and Mrs. Ted Musil and daughter, Jo-Jane.

After the dinner, the group spent the evening playing cards.

ENTERTAINING FAMILY

Mr. and Mrs. James Johnsen entertained members of their family at their home, 407 E. 10th avenue, Christmas Eve.

Present were Mr. and Mrs. Delbert Johnsen, Mr. and Mrs. Wilford Widows, Larry and Robert Johnsen, Mr. and Mrs. Darryl Schinner and daughter, Cynthia and Theresa, Mrs. Pauline Keel and daughters, Norma Jean and Cathy, Mr. and Mrs. Ernie Johnsen and daughter, Debra, Mr. and Mrs. Everett Laxton and children, Phil and Judy, of Colfaxville, Ill., and the Johnsenes' children, Sharon, Joyce, Mary and Darlene.

YULE DINNER GUESTS

Mr. and Mrs. Charles Hickman and daughter, Sandy, had as Christmas Day dinner guests in their home, 45 Terrace lane, members of their families and friends.

Mrs. Hickman had the home decorated in a traditional Christmas theme, with a Santa on the fireplace. She served dinner to Mrs. Bessie Hickman, Miss Fairy Hickman, Mr. and Mrs. Robert Fanning and son, Scott, Mrs. Fannie Buckley of Edwardsville, Mr. and Mrs. Robert McCormick and son, Terry, and Mr. and Mrs. John Byrd.

FORMER RESIDENTS HOSE FOR HOLIDAYS

Mr. and Mrs. Don Gambin of Des Moines, Ia., former local residents, flew here to spend the Christmas holidays with their parents, Mr. and Mrs. James Russell, 1738 Brown avenue and Mr. and Mrs. Arvin Gambin of Bellefontaine, Mo.

Mr. and Mrs. Russell had the Don Gambins as dinner guests Monday as well as Mrs. Russell's brother-in-law and sister, Mr. and Mrs. Karl Pletzer and children, and Fred of the University City and her aunt, Mrs. Alma Fusterson of East Alton.

The Russell home was decorated for a seasonal theme, and the Christmas dinner table held a small poinsettia surrounded with greenery and the centerpiece. The group attended the installation of Miss Nancy Pletzer as queen of Belle Chapter 212 in Clayton, Mo.

SPEND HOLIDAY HERE

Mr. and Mrs. Lyndon Harold and children, Donna and Mike, of Tulsa, Okla., and Mr. and Mrs. Robert E. Harris and children, Vicky and Patty, of Hannibal, Mo., spent the holidays with their families over the holiday weekend.

The Harolds are former residents of the Port of St. Louis and spent some time with their parents, Mr. and Mrs. R. O. Harlow, of Hannibal, Mo., and their brother-in-law and sister, Dr. and Mrs. Gale Jones of Cleveland, Ohio.

HOLIDAY HOSTS

Mr. and Mrs. William Zimmer of St. Louis entertained their relatives and friends Christmas night in their home, 3263 Westchester drive.

The hosts used a seasonal theme in her decorations, with a tree, holly and candles predominating. A late dessert course was served to Mr. and Mrs. William Zimmer, Mr. and Mrs. Robert Margeson, Mr. and Mrs. Ted Jensen and children, Phyllis and Cheryl, Miss Marie Zimmer and the Zimmer children, Gary, June and David, and Tim.

CLUB DINES OUT

The Fri De Birthday club dined at the Port of St. Louis and then attended the Phyllis Diller show in St. Louis Tuesday evening. The club, enjoying the evening were Mrs. Mary Jayne El, Mrs. Lorraine Williams, Mrs. Ethel Zimmer, Mrs. June Sudholt, Mrs. Mildred Fehling, Mrs. Babe Johnson, Mrs. Dolores Crane and Mrs. Cecile Maykoyet.

HOSTS AT DINNER

Mr. and Mrs. Wilford Widows entertained at a Christmas Eve, holly and candles predominating. Members of the family attending the dinner were Mr. and Mrs. James Russell, Mr. and Mrs. Sharon, Joyce, Mary and Darlene, and Mr. and Mrs. Everett Laxton and children, Phil and Judy, of Colfaxville, Ill.

CHRISTMAS DINNER

Mr. and Mrs. Paul J. Hill entertained their parents at a Christmas dinner in their home, 3263 Rodger avenue, Christmas Day. Guests were Mr. and Mrs. J. H. Hill, Mr. and Mrs. Ed Knight and Beverly and Cheryl.

HERE FROM FLORIDA

Mr. and Mrs. William Hutchins of Daytona Beach, Fla., spent the holiday visiting his brother, Mr. Donald Hutchins, of Bryan avenue, and Mr. and Mrs. Leland Brackett, 2301 Gary avenue.

Mr. and Mrs. Earl Young entertained with a dinner Christmas Eve. Guests were Mr. and Mrs. William Campbell and daughter, Diane, and Mrs. Rachael Vargo.

HOLIDAY VISIT

Mr. and Mrs. Donald E. Brumby spent Christmas Day in Glen Carbon along with their children, Christina and Kurt, visiting Mrs. Brumby's parents, Mr. and Mrs. Joseph Sperandio.

DADMS IN HOSPITAL

Ernest Adams, local police officer, entered St. Elizabeth Hospital Tuesday after suffering an apparent heart attack at his home, 4013 Rode avenue, on Christmas eve.

Mr. and Mrs. Robert Margeson entertained their son-in-law, daughter and grandchildren in their home, 3156 Audrey avenue, Monday for a traditional family dinner. Mr. and Mrs. William Zimmer Jr. and children, Gary, Jane and David, were guests.

ON LEAVE FROM FLORIDA

Wayne Markham of the Navy is home on an 11-day leave from Mayport, Fla. He is stationed aboard the ship USS Stennis. He is the son of Mr. and Mrs. Ed Markham, 2139 Edison avenue.

HONORED AT SHOWER

Miss Barbara Staggs, 1209 E. 10th avenue, was honored Wednesday evening at a personal shower, given by Misses Carol Rudulick and Mrs. Lillian Stenhouse and Mrs. Phyllis Barnes.

Games were played, and prizes were given by Misses Staggs, Stacy and Glenna Staggs.

Refreshments were served to Barbara and her guests, Mrs. Barbara and Karl Shelton, Becky Shaw, Trudy Keel, Judy Stacy, Glenna Staggs, Thelma Eddy, Ann Elledge, Ruby Eyles and Flossie York. Many gifts were presented.

VISIT IN TENNESSEE

Mr. and Mrs. Bill Hildreth and son Randy and Mr. Eddie Vaughn, 1317 Edwardsville road, left Mr. and Mrs. Arthur MacKenzie and son, Keith, and daughter, Reed, of Sheridan avenue, spent Christmas in Dover, Tenn., visiting Mr. and Mrs. Roy Bagwell and Mr. and Mrs. Jim Byrd.

FAMILY PARTY

A Christmas Eve party was held at the home of Mr. and Mrs. Benjamin Bosworth, 1688 Second street, for members of their family, including Mr. and Mrs. Fred M. Plebanek of Granite City, parents of Mrs. Bosworth, Charles Kosk of Madison, Mo., and Mrs. Edward Dennis and son, Eddie, of Troy, Mo. Mrs. Dennis is a sister of Mrs. Bosworth and a daughter of the Plebaneks.

The adults opened their gifts during the evening. A buffet supper was served from a table decorated for Christmas. The home also was decorated including lighted tree.

The group, with the exception of Kosk, spent Christmas Day at the Plebanek home, 2900 Iowa street. The Bosworth children, Veronica, Beverly, Benny Jr., Robbie and Freddie, enjoyed both occasions.

HOLIDAY DINNER PARTY

A Christmas dinner party was held Sunday at the home of Mr. and Mrs. Wilbur Moore, 2007 Fifth street.

Members of the family present included Mrs. Jennie Brown, mother of Mrs. Moore, and Misses Margaret and Hattie Brown, Ellis Grove, Ill., Mr. and Mrs. Raymond Carter, Ferguson, Mo., and Mrs. Robert Smith and daughter, Pamela, Sharline and Kimberley of Battle Creek, Mich., and Mr. and Mrs. Henry George and daughter, Alice, of St. Louis.

Mr. and Mrs. Zolli Geintz

Mr. and Mrs. Zolli Geintz, 1706 Sixth street, spent the Christmas holidays visiting their son and daughter-in-law, Mr. and Mrs. Bryan Gould and children, Bryan Jr., Retha and Billy Mac, in Chicago. They traveled by train, returning here Tuesday evening.

Due to a recent illness in the

Bellco family, they will be unable to hold the yearly namesake party house celebration of Jan. 5 and 20.

NEWLYWEDS HONORED

A belated wedding reception was held Christmas Eve, honoring Mr. and Mrs. Frank Shifter Jr., whose wedding took place Thanksgiving day. The couple was married at the chapel at the Fort Sheridan, Ill., Army base.

The Liberty Home in Madison had Christmas decorations for the reception, given by Mrs. Frank Shifter Sr.

A buffet supper was served to the following: Mr. and Mrs. Peter Novachik and children, Peter Jr., Mary Ruth and Michael, Mr. and Mrs. Walter Grubich and daughter, Kathy, Mrs. Mary Grubich, Mr. and Mrs. William Novachik, Mr. and Mrs. William Heith and sons, Billy, Greg, Gary and Bobby, Mr. and Mrs. Pete Olubina and children, Kathleen and John, Mr. and Mrs. Stanley Skubish and daughter, Patti, Mr. and Mrs. Al Skubish and children, Terry and David, Mrs. Agnes Brich, Mr. and Mrs. Paul Berlich, Mr. and Mrs. John Measki and children, John and Pete, Mr. and Mrs. Mike Mecava, Mr. Mary Opich and son, Bobby, Mr. and Mrs. Mike Oresovich, Mr. and Mrs. Frank Orris, Mr. and Mrs. Joseph Herman and son, Bobby, Mr. and Mrs. John Krevovich and children, Jerry Dusek, Miss Brenda Norwood, Mr. and Mrs. Thomas Layloff Jr., Norman and Miss Norma Kester, Ed Goclan, Mr. and Mrs. I. G. Brummer and Mr. and Mrs. John Klueh and daughter, Joanne, Mr. and Mrs. Shifter Jr., left Madison Tuesday morning to visit Mrs. Shifter's mother and sisters at Council Bluffs, Ia. A reception is to be held there, after which they will return to their home in Chicago.

HOLIDAY GATHERING

Press-Record Staff Photographer

ONE DAY was all six-year-old James Larry Miller needed to master his first two-wheel bicycle, a 22-inch "president" model delivered Christmas morning to his home by Santa Claus. He is shown being aided by his stepfather, William L. Mosier, 3123 West 20th street, who sold him the side training wheels yesterday at the boy's request. After a few wobbly starts and a couple of tumbles, causing no damage or pain, the little Washington school first grader rode off straight as an arrow after this picture was snapped in the 3100 block of West 20th street.

HOLIDAY VISIT

Mrs. Marie Stewart of the Venice Homes and Misses Mabel and Lucille Harrison, both of Madison, spent Christmas Day with Mr. and Mrs. Roper Harrison of Greenville, Ill.

Mr. and Mrs. William Ebersold, 804 Third street, entertained as guests in their home Sunday evening Mr. and Mrs. Robert Stoff of Edwardsville, Mrs. Luella Loescher and Miss Hulda Hermit of St. Louis, and Jim and Neil Ebersold.

HOLIDAY GATHERING

Guests at the home of Mr. and Mrs. Floyd Painter, 121 Granville street, on Christmas Day were Mr. and Mrs. Ralph Painter and son David, Mr. and Mrs. Wm. McDowell and son Bill, Miss Jeanette Skubish, Mr. and Mrs. Courtland Kobitz and sons Dickie and Tommy, of Cassville, Mr. and Mrs. William Orendorff of St. Louis, and Mrs. Jessie Oehls and Darrell Painter.

A dinner was served, and gifts were exchanged, followed by a social evening.

CHRISTMAS GUESTS

Mr. and Mrs. Alex Kowalski, 728 Brown street, entertained the following guests in their home for Christmas: Mr. and Mrs. Tom Kowalski and daughters Susan and Kristy, of Venice; Mr. and Mrs. Jerry Kowalski of Bridgeton, Mo.; Mr. and Mrs. Larry Shafer and children Kim, Karen and David, of St. Louis; and Mrs. Kowalski's father, Rudolph Blumenstock of Marion, Ill.

Levee Trustees

Defer Action

(Continued from Page 1)

recommend the (levee) board accept it," he told Dorsey. "But we're a committee of citizens, not a corporation," Dorsey replied.

"But the banks included on the committee are corporate entities," Sprague said.

Dorsey's comment that the lack of action on the bond sale plan "gives the impression" that the levee district is delaying unnecessarily brought quick denials from board members and attorneys Sprague and John Hoban.

"We've already taken two of the steps you recommended (engaging a bond approving counsel and securing advance approval of bond sale details) and the papers were on their way to Chicago last Thursday," Sprague said. The district has retained Chapman & Cutler of Chicago as bond approving attorneys.

Tolar told Dorsey there was no assurance that the six East St. Louis area banks would be selected as paying agents for the bond issue, and that the district could proceed on its own if necessary, once legal technicalities are cleared away.

Board member Thomas Hennessy, who took issue with Dorsey several times during the meeting, said the district will invest the money where we will give the best interest rates.

He referred to portions of the bond issue funds which would not be needed immediately after sale of the bonds, and could be placed in short term investments.

Dorsey said representatives of his group would attend forthcoming levee board meetings. In reply to the question as to why Granite City banks were not included among the six who would act as paying agents for the bonds, he said they were offered the chance to participate in the plan, and are still welcome.

Review and Forecast

Extremely accurate in their eight preceding forecasts, Quad-City business, industrial, agricultural, financial and community planning leaders again have reviewed the past year and taken a look into the future. Virtually all foresee greater prosperity in 1962 than in 1961, both locally and nationally. Higher employment is predicted, especially in the first half of the year.

The guest authors agree that the degree of economic expansion here will depend on how well the community meets its major challenges—Granite City drainage, Madison county zoning, industrial development, additional port facilities and urban renewal.

Favorable signs for 1962 include transfer of greater production allocations to the A. O. Smith Corp.; other industrial contracts; expansion of Illinois Power Co.

area generating and distributing facilities to handle 3150 new customers—2300 gas and 850 electricals; construction at the new Southern Illinois University campus and in local school districts; a new housing project; continuing highway and home building; a new Granite City post office; local firms' increasing diversification; and flood protection improvements.

General factors that are favorable include population gains, the Quad-Cities' geographical location, increased governmental spending, improved retail merchandising and consumers' present backlog of savings.

Needs cited include realistic tax, depreciation and reinvestment policies; production efficiency and quality; and cooperation by all to enhance the favorable climate for manufacturing, commercial and residential expansion.

Granite City Steel Co.

By Nicholas P. Veeder,
Board Chairman and President

Granite City Steel Co. has operated at or near capacity during much of the last quarter of this year. In fact, we produced more ingot steel in October and again, in November than in any preceding single month in our history. The number of men and women employed at our plant—about 64% of whom live in the Quad-Cities—rose above the 5000 mark.

It should be understood that our production has been larger than required to fill orders from customers. Much of the excess is still in the plant. It has built up an inventory of semi-finished steel products to help meet an expected sharp increase in shipments during the next few months. Granite City Steel should be operating full in this period.

New Galvanizing Line

Earlier this month, we finished the construction of one of the largest units in our current expansion program—an 874-foot-long continuous galvanizing line that applies a zinc coating to moving strip of steel.

We will round out a substantial expansion of our tin plating facilities early in 1962 when we complete a continuous annealing line for heat treating light gauge steel. It is being built in that large new building along 20th street.

Those two facilities are worthy of note because we made this investment as much to improve the quality of those products as to increase output. The pickup in demand that should mark the upcoming months will not mean that the steel industry is any less competitive. Steel buyers will continue to insist that the mills that supply them meet rigid quality standards.

Quality Factor

Granite City Steel has some of the newest and best production equipment in the steel industry. In the last analysis, however, the quality of any steel mill's products depends more on its employees' skills and attention to detail than on the newness of its machinery.

The steel mill that gets the most orders and, thus, provides the most jobs is the one that is the most efficient at producing to the specifications of its customers.

Looking ahead to 1962, the challenge Granite City Steel faces is only one of several that are likely to be met by the company's rapid growth. Having grown very rapidly, the company is better equipped than ever to step up production.

Now it is the quality of our plates, sheets, and other flat rolled steel products that will determine the extent of our success as well as our ability to remain one of the largest employers in the entire metropolitan area.

Leaders in the automotive industry are predicting that the current automobile year, which corresponds roughly to our own fiscal year, will be a very good one, possibly second only to the record year of 1955.

If their forecasts are correct, and with the excellent acceptance of the 1962 Chevrolets, we expect to participate substantially in the increased volume.

In addition, in the months ahead, plans call for the transfer of certain automotive divisions from the Milwaukee Works to the plant at Granite City. Notable among these will be the manufacture of all 1963 Corvette frames. The Corvettes are assembled at Chevrolet's plant in St. Louis.

There are other developments of an encouraging nature which are now in the engineering stage. They give promise of an increased volume of business that will be significant and will have a favorable effect on operations both in Milwaukee and Granite City.

These factors, together with a general economic outlook for 1962 that appears to be sound and in balance, indicate that in the months ahead we should enjoy a steady expansion at Granite City.

Our customer list includes virtually every major aircraft and missile builder plus a tremendously varied roster of commercial product manufacturers all over America.

Employment Increase

Although our diversification into aluminum increases difficulties and expense of operation, it also provides our plant with a broader base for future growth and an advantageous measure of security for continued employment on a gradually increasing scale.

In addition to improving their skills, our employees maintained a highly creditable safety record—only four lost-time injuries in the entire period. Comparably favorable was the small turnover, only 89%. Even though the physical properties of the Madison plant have been owned by Dow for less than 11 years, we have a remarkably mature group of employees, considerably over half of whom have been active here for more than five years.

A somewhat uncertain, immediate future for light metals—great capacity making aluminum competition extremely keen—means that the coming year may have serious difficulties for us, but our advances of the past year or two should enable us to ride out even rough times. Our employment picture is slightly above that of a year ago, and we hope for modest additions over the next 12 months.

The Tri-City area's economic status has been relatively superior during the past few years and should continue so. This is a good place for industry despite some criticism (not unfounded) to the contrary.

Our assets and attractions to additional industrial development here have been enhanced rather than diminished—credit to all parts of our community. Unless one expects some kind of a spectacular change, no one should be disappointed in

the area have a serious problem with high taxes. Property tax on land is higher than in most parts of the state and Illinois farm landowners pay the second highest land tax bill in the United States, with only California paying more. On the average last year, Illinois land taxes alone took 17% of the net farm income.

Our farmers are very progressive and quick to adopt new methods; they have to be if they are to stay in business with these high expenses.

With reasonably good market conditions, they can be expected to continue to make up an important part of the economic life of the Granite City area.

Income from specialized crops like sweet corn and hothouse-grown by many farmers in the community, should continue to make up a substantial portion of farm receipts.

Costs, Taxes

High-production costs in all types of farming make it difficult to make profits, even with reasonably fair prices and good weather. These costs include taxes, machinery and equipment, labor, interest on loans and invested capital and other operating expenses like seed, feed and fertilizer.

Madison County Farm Bureau

By Truman W. May, Farm Advisor

Farmers in the Granite City area are rather optimistic that prices of their products may be somewhat better than in the past year.

With favorable weather and high yields, income from the grain crops—chiefly corn, wheat and soybeans—might improve, considering some increase in demand and reduced acreages on some farms.

Yields in the community usually are higher than in most other parts of the county, as the bottom land soil is more fertile. Flooding is less of a hazard than formerly.

Livestock prices are expected to be about the same, with the hog market more promising than beef cattle, at least during the early part of the year.

Income from specialized crops like sweet corn and hothouse-grown by many farmers in the community, should continue to make up a substantial portion of farm receipts.

Costs, Taxes

High-production costs in all types of farming make it difficult to make profits, even with reasonably fair prices and good weather. These costs include taxes, machinery and equipment, labor, interest on loans and invested capital and other operating expenses like seed, feed and fertilizer.

Costs, Taxes

Union Starch & Refining Co.

By John McBride,
Vice-President and General Manager

The business atmosphere has been marked with quiet confidence and expectation of continuous growth during the next year. The upswing in business which began to occur in mid-year of 1961 will probably continue into 1962 or '63.

Nationally and internationally, the economic growth will be steady, with possibly worldwide developments occurring in new economic relations between countries during the next five years. If there is no war, most of the European and Scandinavian countries will be united in some form of common market arrangement.

In all likelihood, the United States, Canada and Mexico will enter into some similar relationship, with steps being taken to have a coordinated program with the European common market.

Need For New Industries

The most important thing for 1962 is for a stimulating local atmosphere to be created which will bring new industrial development to the Tri-City area. Unless economic growth occurs on the east side of the river during 1962 and into 1963, the local area will become stagnant and will face the probability of some industrial enterprises withering away and dying.

No community can maintain the status quo forever. A community must be vibrant, alive and on-going if it is to survive. The only hope for this area is civic activities. This is the No. 1 challenge facing the Tri-City political leaders, industrial

leaders, labor leaders and citizens to provide the inducement and the healthy climate which will encourage new industries to settle here.

Unless giant steps are taken rapidly, the Tri-City area will find itself in the same position which now exists in East St. Louis and other communities that have not brought in new industries, but have lost some of the old ones.

Unless we have an awakening to these facts, it will be useless to try and stimulate the citizens into participation in any of our civic activities. This is the No. 1 challenge facing the Tri-City political leaders, industrial

leaders, labor leaders and citizens to provide the inducement and the healthy climate which will encourage new industries to settle here.

Unless giant steps are taken rapidly, the Tri-City area will find itself in the same position which now exists in East St. Louis and other communities that have not brought in new industries, but have lost some of the old ones.

Opinion and Forecast

First Granite City National Bank

By Harold R. Fischer, President

Predicting business cycle trends is always difficult, and this year it is more hazardous than usual due to the many international problems. Those experts both real and imagined pressures on each and every one of us.

Today's business scene is bright and getting rosier. A succession of favorable business reports in recent weeks indicates a resumption of the advance in national economy activity that started months ago.

Although we in the Tri-Cities area are primarily interested in business in our own community, we are a part of this great metropolitan area — are affected by each change in the national picture as that change influences the Midwest.

Favorable Factors Here

Improvement in the national picture will be favorably augmented by non-recurring local situations.

Southern Illinois University has been allocated the sum of \$25,000,000 by the state of Illinois for the development of the Edwardsville campus, and the architects have been instructed to prepare drawings for the completed buildings for class-room instruction by the fall of 1962, during that period, all the allocated funds will be spent.

During the early part of 1962, the Tri-City Regional Port Authority will buy certain properties. This will be positive indication of steps towards development of new businesses.

With the increasing interest being aroused by the Tri-City Port Authority, we should see many new employees, thereby further strengthening the overall economic position of Madison county and the adjoining communities, and its future in this center of industrial opportunity.

General Steel Industries, Inc., recently announced new increased orders for cast armor hulls and turrets, providing several months' additional work during the early part of 1962.

Construction will soon be started on the new post office facility at 24th and Madison avenue, thereby greatly improving the efficiency of mail handling in our area.

Excellent progress is being made in acquiring rights-of-way for belt-line superhighways. Work on those, plus continuation of construction on other roads in the metropolitan area, will require large quantities of material, plus many, many man-hours.

Many individuals in the Tri-Cities are employed in plants located in a 25-mile radius and will benefit from the recently awarded huge defense contracts. Although buying some items on an installment plan, most people have their financial affairs in excellent condition with a reserve or unused installment buying power. That backlog, as soon as the successful customer feels more certain of the rosy future, will be released to the benefit of everyone.

County Zoning Committee

By Alton W. May, Chairman

Naturally, my views are from a county level rather than purely Quad-Cities. But it is easy to see that in many — or even most — cases, that which affects the county also affects the Quad-Cities.

It is understandable that when I look on Madison county and try to predict what will happen to it, I should try to be as optimistic as possible. I know that as good things happen, and I am around, a little bit of might brush off on me, and I am selfish enough to want the best both for myself and my family.

Sooner or later, you may as well expect me to get around to talking about the effects of good planning, because this has been the aim and endeavor of many of my years on the County Board of Supervisors.

Planning Affects Future I am convinced that my prediction of good things for Madison county and as a consequence to the Quad-Cities depends directly on what is done here in our area so that it is ready when the good things begin to happen. By good things I mean the development of the means to a fuller life for all of us — the creation of job opportunities, the

development of recreational areas, the building of the necessary new roads so that we can get from one of these to the other, the protection of all phases of development so that it is brought to us in an orderly, well-defined fashion and that it does not interfere with or choke off the other.

I predict that if planning and development are done so that this coming year will be a banner year and a milestone in the progress of our community.

Tri-Cities Chamber of Commerce

By Paul H. Eichtenberger, President

The year 1961 has been one of frustration for many segments of our local business community. The year started with almost unanimous predictions for a boom in all types of business. This, as we now know, was slow in starting and only attained a satisfactory momentum after mid-year.

Retail trade up to the holiday season was off slightly from 1960, with most merchants hopeful that the holiday trade would bring their total sales to a figure equal with the previous year. The Tri-Cities, especially Granite City, face many problems in the year ahead. Citizens will be called upon to approve the Madison County Zoning Plan, to provide for the orderly growth and expansion of areas outside the corporate limits of our cities. While the proposed plan may not be perfect in every detail, it is at least a start in the right direction.

Locally, Granite City will be faced with the decision for a solution of our storm water and drainage problems. The directive issued by the State Department of Public Health, and the pressure against further extension of our sewer system makes this imperative. We also have the problem of ever-increasing local taxes on real estate, which has caused a severe slowdown in home building in the past year.

Lead on Nuclear Submarines The modern nuclear submarine power source is shielded with lead, some of which was made at the Hoyt Plant in Granite City, Lead, due to its density, is very useful for ballast in deep-sea submarines.

American National Bank of Granite City

By Harold F. Karandjoff, President

During the early 1800s, Thomas Malthus, the leading economist of his day, forecast that the world's population would grow at such a rapid rate that it would be impossible to raise sufficient food. Today, in the United States, a mere 4% of our people produce such a large excess of food that we are unable to dispose of it, and most experts in the field are certain that the backward nations in the world can be taught to raise food in abundance.

About 1850, Karl Marx forecast that in a country such as ours, the backward man would always be exploited, and concluded that production of goods must be owned and controlled by the state to guarantee the individual's right to freedom. Today, in the United States, under capitalism, we have achieved a more even distribution of wealth and greater freedom for the individual than any other nation has accomplished.

In the early 1940s, there was a practically unanimous forecast by economists that a severe worldwide depression would follow the end of world war II. Since that time, Europe has had greater prosperity than it has ever known, and Japan and the United States.

A survey of the Tri-Cities, made by a most reputable agency in 1958, said that the Granite City school system must be able to accommodate 10,000 by 1965. We find that presently this system has 11,739 enrolled.

Insufficient Optimism It appears that most forecasts of economic trends fail to be sufficiently optimistic. We should have confidence that the character of our people is such that any and every problem can and will be resolved — whether it is a local problem of storm and sanitary drainage or an international problem of cooperation between nations. We must certainly expect that the progress we have seen in the Tri-Cities during the past years will continue.

The geographical location of the Tri-Cities gives us unique transportation facilities by air, rail, ship and highway that are among the finest.

The large tracts of land adjoining Granite City provide for substantial growth of both in-

dustry and residential areas. These locations are superior to any elsewhere available in the Greater St. Louis area and, along with the Tri-Cities highly efficient manpower, will within the next few years continue to bring further new and diversified industry to our community.

Further Diversification The Tri-City Port Authority, organized late in 1959, has prepared plans which will do much for the development of our area. Their facilities will bring many new businesses to the Tri-Cities and thus provide even further diversification of industry.

In a short time the nearby campus of Southern Illinois University will open with an original enrollment of about 10,000 students, and we should all look forward to the many cultural opportunities this new university campus will provide us.

The American National Bank of Granite City looks forward to continued growth in the number of customers we serve, and will be prepared to accommodate increasing numbers efficiently and promptly.

We have been always true in the past, and will no doubt continue to be true, there are many difficult tasks to be accomplished in the year ahead. It is our duty to work together with pride and confidence to protect ourselves and solve problems as they arise to assure ourselves of a dynamic forward-looking area in which to live.

Granite City Trust and Savings Bank

By E. A. Karandjoff, President

We here at Granite City Trust continue to have confidence in the future of Granite City and the nation.

This is evidenced by the continued expansion of our facilities so that we might always offer the best possible banking service to the Quad-Cities.

We hope shortly to announce the opening of our sidewalk windows on Delmar avenue. This facility will also enable us to give faster service to our drive-in customers and to contribute to a better traffic flow in the downtown area with our new driveway exiting on Delmar avenue.

Further, we are proud to be among the first banks in the nation to announce the increased interest rate on savings deposits of a guaranteed 4% effective Jan. 1, 1962.

A discussion of the national picture is somewhat more complicated than our local one. Fortunately, the recession we experienced during 1961 was the least severe in the last 15 years.

Inventory Purchasing The inventory investment taking place late in 1961 contributed greatly to the stability of our economy. This increased inventory purchasing on the part of merchants will continue into 1962.

Because of the alarming international situation, we can naturally expect the annual rate for national defense expenditures to be increased during the coming year, which will add to the impetus of our economic growth. At the same time, early estimates for other state and local expenditures indicate that these will also increase. Therefore, the increase in spending by various governmental bodies will contribute largely to our continued prosperity in 1962.

Happily, sales of consumer goods for the Christmas season have been considerably higher than expected. This somewhat offsets the ill effects created by the recession in the retail trade. It is estimated that consumer durable goods will show a considerable increase.

More Savings In 1961 we also experienced repayment of installment loans faster than new loans were made with a consequent reduction in the total debt of our people. This naturally resulted in an increase in savings. Because the supply of money in the commercial banking system has increased, it is a bulwark for economic expansion in the coming year.

American corporations spent less money for capital goods in 1961 than in prior years. It is to be expected that many companies will use their funds and will use them to add to their plants during the coming year.

Another factor for the expansion of business is the indication that research and development expenditures will continue at high levels. It has been variously estimated that some 20% of all firms sold today were not even known five to 10 years ago.

All of these factors enumerated are on the plus side and will contribute to the expansion of our economy. However, there are some things that are affecting us adversely and they, too, should be discussed in any forecast of local or national economic conditions.

Shift in Spending Chief among these is the continuing shift in spending that has occurred on the part of the consumer. More money is spent

on non-durable goods and services than on hard consumer goods. This has resulted in a situation where industry is using only about 85% of its plant capacity.

Likewise, as we mentioned last year, housing starts did not materialize even as much as was expected. At the present time, there seems to be a good supply of rental units on a national basis.

Likewise, persistent unemployment in large industrial areas has affected the growth of our prosperity. When we consider all of the above factors, we can only conclude that 1962 will be a good year, certainly better than 1961. At the same time, realize that because 1962 is an election year, the economy will have the close support of local and national administrations and that all means available will be used to contribute to our continued prosperity.

Reilly Tar & Chemical Corp.

By K. J. Morrison, Plant Manager

We at Reilly Tar and Chemical Corp. look forward to 1962 with a tremendous amount of enthusiasm. The year 1961 has been gracious to most of the residents of the Quad-Cities.

I believe that business throughout the United States should be on a definite upswing throughout the first half of the year and that it will level off during the third quarter and increase gradually during the closing quarter. While this forecast is on a national basis, it quite readily applies to the Quad-Cities.

Most of the local industries supply materials to companies doing business on a national scale, or else they are companies already in this category. All of these businesses are affected by local consumer establishments. They supply income to local residents in many ways — directly through payrolls and taxes and indirectly through local suppliers, advertising media, organizations and transportation usage; therefore, we can safely say that the Quad-Cities economy can be aptly equated to the state of the country.

With increased business, employment will logically follow. This will be accomplished not only through increased employment by industry and retail establishments, but also through increased employment for the service industry and additional construction required by an expanding economy.

New Equipment During 1960, the local plant of the Reilly Tar and Chemical Corp. installed a considerable amount of new equipment, and during the year 1961, production on these units was increased to their full capacity.

Wider Range of Products Another important development during the year was the recently revealed plan to change our company's overall corporate name to AMSTED Industries, Incorporated. This name will be submitted for consideration and vote at the company's regular annual meeting of stockholders Jan. 23, 1962.

The company's diversification program has made the American Steel Foundries name inappropriate when applied to the wide range of product lines. Acquisitions and new product development during the past 11 years have taken the company into production of roller chains and sprockets, cast iron and steel pipe for the oil and gas industries.

Had it not been for the substantial commercial value of the American Steel Foundries name, established over a period of 50 years, the Transportation Equipment Division and the Hammond Division would have been sold. This track is being operated by the American Steel Foundries Division, will continue to be known under the American Steel Foundries name.

As in the case of so many other local industries, this plant's operation is, to some extent, related to the operation of the Granite City Steel Co., as we obtain the majority of our crude materials from the steel company's Blast Furnace Division. Hence, with their increased production of by-products through the construction of new ovens, the amount of crude materials available to us will increase.

We look forward to a larger volume of sales during 1962, and because of the two foregoing facts, we hope to expand our facilities through new construction.

Not only will this add to local employment through the construction program, but also by the new employees we expect to hire to operate these facilities.

City Planning Commission

By David W. Morgan, Chairman

The Planning Commission has not received plans that would enable me to make an economic forecast for 1962, but the construction of the 100-acre housing project for the elderly should help the work situation. Construction of these units should be completed in the early part of 1962.

There are two programs under study at the present time that should help to increase the economic growth of Granite City in the future. They are the urban renewal program and the storm water drainage program. These programs are very important to the city in the early part of 1962. The urban renewal program can help build up and rehabilitate areas within the city. The stormwater drainage program would allow the city to continue growing, with the city's attracting new industry.

Neither of these programs will have any economic effect during the ensuing year. However, they are programs that should be given considerable thought in 1962.

Neither of these programs will have any economic effect during the ensuing year. However, they are programs that should be given considerable thought in 1962.

St. Louis District Corps of Engineers

By Col. Alfred J. D'Arzo, District Engineer

During the past 10 to 15 years, the St. Louis District of the Corps of Engineers has been engaged in annual, continuing civil works construction projects and studies which set the stage for the phenomenal emergence and development of eastern Missouri and western Illinois. Over the years, the annual increments of work have added, sometimes imperceptibly, to the completion of these mammoth projects.

We are now entering a period where many of these construction projects are nearing completion, and many of the engineering studies for new projects have matured to the point where their full nature and scope are evident.

Those portions of Missouri and Illinois which lie in the large water basin of the 300-mile stretch of the Mississippi River from Cairo, Ill., to Hannibal, Mo., a water basin involving nearly 26,000 square miles, which includes such tributaries as the Kaskaskia and the Big Muddy, the Meramec and Salt Rivers—appear destined to become a revitalized economic unit in proportion to their size.

This project was formerly described by Gov. Wm. W. Phelps of Illinois as the "biggest project in the world," and has its recent address in St. Louis.

\$250 Million in Project
Currently, the Corps of Engineers is working on continuing construction projects having a total value of some \$250,000,000. During the current fiscal year, an incremental amount of \$28,000,000 will be accomplished toward achieving the completed projects.

These projects involve not only tangible navigation and flood control benefits, but they also provide benefits in the form of water storage, recreation, anti-pollution and hydro-power.

Most of these projects involve cooperative endeavors of the Corps of Engineers and the various other federal agencies, the states of Illinois and Missouri, the cities of St. Louis and East St. Louis, numerous municipalities, and levee and drainage districts in both Illinois and Missouri.

Aid To Area Growth
The growth or rebirth of many areas throughout the region can be directly traced to the improved water conditions developed at or near such regions.

A description of each of these major projects will serve to point out their magnitude and far-reaching importance.

(1) **St. Louis Flood Protection Project** involves construction of some 11 miles of levees, floodwalls, 21 pumping plants and 23 sewer systems along 21 miles of St. Louis riverfront, extending southward from Maline Creek to Chippewa street, extended.

These works will protect the St. Louis riverfront industrial complex against a record flood producing 52 feet on the St. Louis gauge.

Vast Project
When this project is completed in 1967, it will constitute one of the largest and most comprehensive flood protection works of a metropolitan industrial and transportation complex in the United States.

The construction project was started in 1959. It is now 30% complete and is ahead of schedule. Its benefit-cost is about 2 to 1.

The estimated cost of the entire project is \$110,000,000.

During this fiscal year, beginning 1 July 1961, another \$10 million of construction, amounting to \$9,160,000, will be completed.

Wood River Flood Control
(2) **Wood River Flood Control Project** involves the construction of some 20 miles of levees and floodwalls and seven pumping stations to protect the highly industrialized complex in the Illinois cities of Hartford, Wood River, Roxana, East Alton and Alton from the highest record floods.

The levee and drainage district encompasses some 13,700 acres of land.

The construction project was started in 1947 and is now about 83% complete. Total cost is approximately \$17,600,000, and the benefit-cost ratio is over 17 to 1.

The amount of money to be spent on this project during the current fiscal year is \$988,000, which will complete the entire project.

Levees/Pump Stations Here
(3) **East St. Louis Flood Protection Project** involves the construction of 21 miles of levees and floodwalls, ten new pumping stations and the alteration of four existing stations.

East St. Louis & Interurban Water Co.

By E. Clinton Smith, Vice-President & Manager

At this time of year, the East St. Louis and Interurban Water Co., like most other business enterprises, reviews its current year's business experience and, in the light of this experience, makes its plans and forecasts for the coming year.

Our expansion plans are, of necessity, long-range plans, projected over intervals of five, 10 and 15 years; and, therefore, one unit of a larger program.

In the year 1961, this company invested approximately \$1 million in capital expansion of its physical facilities necessary to continue to provide adequate water service to the citizens of the 21 communities in the area it serves.

Among the major additions carried out were an additional pumping unit at its low service station, relocation of large water lines due to the federal highway installations, completion of new filter plant, and the installation of 11 million gallons per day at our East St. Louis filtration plant, and the installation of a large water pipe line between its low service and high service stations, and installation of a large water pipe line between its low service and high service stations, and installation of a large water pipe line between its low service and high service stations.

While 1961 was not, in general, a good year for business, it did, however, mark the turning point of the recession and, in the latter months of the year, a definite upturn was experienced.

In estimating the business probabilities for 1962, we have concluded that this business unit will continue at a slow, moderate pace. It is felt that while no real boom has been experienced, the gradual recovery will bring about a higher level of business in general.

The dam would be located about 63 miles above the mouth of the Salt River, which empties into the Mississippi, above Louisiana, Mo.

It is estimated to cost about \$63,000,000 and it has a benefit-cost ratio of 1.3 to 1. The reservoir would provide flood protection to about 27,500 acres of land in the basin.

The report contemplates production of power on a pumped-storage system.

Barge Navigation
(9) **Big Muddy River and Beaucauc Creek in Southern Illinois.** This study involves a plan to provide adequate navigation depths in the Big Muddy River and Beaucauc Creek up to the Jefferson-Franklin county line on the Big Muddy and Pinckneyville, Ill., on Beaucauc Creek, to permit navigation to the highest product of business in the valley to regional markets.

The study is in advanced stages and contemplates a major realignment of a portion of the stream and construction of a new navigation facilities. An aerial survey has been made and necessary hydraulic and physical data are presently being gathered in the field.

Congress, this year, provided \$100,000 to continue work on this detailed study.

In order to be favorable, the project must show a benefit-cost ratio of 1 to 1, and this ratio will be revealed at the conclusion of the study.

Study Progressing
(10) **Proposed Meramec Basin Project** involves a study of the Meramec, Bourbeuse and Big Rivers, with a view to the best means of meeting the near and remote needs of navigation, flood control, hydroelectric power, water supply, irrigation, pollution abatement, fish regulation, recreation and fish and wildlife conservation.

The study was begun in 1960 and is scheduled for completion about 1963.

The study has provided a total of \$183,000 for the new study, with \$135,000 of this amount coming from the last Congress.

The study is also being coordinated with the Meramec Basin project, which is also currently in progress.

Proposed New Lock And Dam
(11) **Kaskaskia Navigation Project** involves the construction of a new lock and dam on the Kaskaskia River, between the Mississippi River and Fayetteville, Ill. The report has received favorable consideration by all elements of the Corps of Engineers and has been forwarded to Congress for authorization.

It recommends attainment of a minimum depth and a channel 200 feet wide, to be accomplished by dredging, overbank cutoffs and levee construction.

The project also involves alteration of bridges and utility crossings, and other remedial work in the stream.

Purpose of the project is to serve as a barge transportation link to permit waterway movement of goods and materials.

The project is estimated to cost \$7,500,000. The average annual benefits when it is completed will be about \$400,000 and the benefit-cost ratio is 1.4 to 1.

The project was started in 1957 and is scheduled for completion in 1964. This year, an important element of construction will be the installation of a 300-foot-long rock fill dam.

Purpose of the dam is to raise the water level to provide adequate navigation depths over the lower gate all at the Alton Locks, 12 miles above during low-water periods.

When this project is completed in 1962, it will eliminate the increasing monetary losses and delays sustained by waterways operators and shippers during the last ten years.

First Of Its Type
From an engineering and construction viewpoint, this dam is one of the outstanding projects of its type in the world. It is noted for its simplicity of design and its economy. It is the first permanent barrier, a clause of a major river in the United States, without resorting to confining a river.

The project was started in 1959. It is now 58% complete. Its benefit-cost ratio is over 1.3 to 1. The reservoir would provide flood protection to about 27,500 acres of land in the basin.

The report contemplates production of power on a pumped-storage system.

Barge Navigation
(9) **Big Muddy River and Beaucauc Creek in Southern Illinois.** This study involves a plan to provide adequate navigation depths in the Big Muddy River and Beaucauc Creek up to the Jefferson-Franklin county line on the Big Muddy and Pinckneyville, Ill., on Beaucauc Creek, to permit navigation to the highest product of business in the valley to regional markets.

The study is in advanced stages and contemplates a major realignment of a portion of the stream and construction of a new navigation facilities. An aerial survey has been made and necessary hydraulic and physical data are presently being gathered in the field.

Congress, this year, provided \$100,000 to continue work on this detailed study.

In order to be favorable, the project must show a benefit-cost ratio of 1 to 1, and this ratio will be revealed at the conclusion of the study.

Study Progressing
(10) **Proposed Meramec Basin Project** involves a study of the Meramec, Bourbeuse and Big Rivers, with a view to the best means of meeting the near and remote needs of navigation, flood control, hydroelectric power, water supply, irrigation, pollution abatement, fish regulation, recreation and fish and wildlife conservation.

The study was begun in 1960 and is scheduled for completion about 1963.

The study has provided a total of \$183,000 for the new study, with \$135,000 of this amount coming from the last Congress.

The study is also being coordinated with the Meramec Basin project, which is also currently in progress.

Proposed New Lock And Dam

When this project is completed in 1962, it will eliminate the increasing monetary losses and delays sustained by waterways operators and shippers during the last ten years.

Granite City Engineer Depot

By Lt. Col. John M. Ansley, Commanding Officer

The Granite City Engineer Depot will close out the year 1961 with a sense of satisfaction for a job well done.

Our forecast of last year was generally proven to be true in most of our mission areas. The build-up of Army forces, which was not expected for the year, added a considerable load to our supply and maintenance mission and roughly doubled our responsibilities for troop training.

We look forward to the year 1962 with anticipation for a busy and productive year. In some areas, our mission will continue without considerable change. For example, the 52nd Engineer Detachment, which provided maintenance support of Engineer equipment for the Nike batteries in the St. Louis area, will continue to operate around the clock. It is their responsibility to keep the missile equipment in perfect operating condition for a continual "ready" status.

The number of troops unit stationed at the Depot was increased by the recent Presidential Proclamation of the 44th Engineer Company (Detachment) from Schenectady, N. Y., and the 47th Engineer Company (Detachment) from Ft. Belvoir, Mich. One National Guard unit was also called to active duty.

The 381st Engineer Group (M&S) from Sacramento, Calif., the 56th Engineer Battalion (Detachment) from Columbus, O., and the 44th Engineer Company (Detachment) from Schenectady, N. Y., and the 47th Engineer Company (Detachment) from Ft. Belvoir, Mich. One National Guard unit was also called to active duty.

The 381st Engineer Group (M&S) from Sacramento, Calif., the 56th Engineer Battalion (Detachment) from Columbus, O., and the 44th Engineer Company (Detachment) from Schenectady, N. Y., and the 47th Engineer Company (Detachment) from Ft. Belvoir, Mich. One National Guard unit was also called to active duty.

The 381st Engineer Group (M&S) from Sacramento, Calif., the 56th Engineer Battalion (Detachment) from Columbus, O., and the 44th Engineer Company (Detachment) from Schenectady, N. Y., and the 47th Engineer Company (Detachment) from Ft. Belvoir, Mich. One National Guard unit was also called to active duty.

The 381st Engineer Group (M&S) from Sacramento, Calif., the 56th Engineer Battalion (Detachment) from Columbus, O., and the 44th Engineer Company (Detachment) from Schenectady, N. Y., and the 47th Engineer Company (Detachment) from Ft. Belvoir, Mich. One National Guard unit was also called to active duty.

Illinois Power Co.

By E. G. Schmitt, Service Area Manager

Illinois Power Company's confidence in the Tri-City area's growth is reflected in the company's construction plans for 1962. In this next year we will continue to improve our program, which is designed to keep ahead of our customers' additional needs for electricity and natural gas.

Long-range system planning forecasts, as well as those for the Tri-City area, are optimistic for the future. Commercial and residential progress of the Tri-Cities, as well as for the Tri-City area, is reflected in the company's construction plans for 1962. In this next year we will continue to improve our program, which is designed to keep ahead of our customers' additional needs for electricity and natural gas.

Granite City Real Estate Board

By Sam W. Wolf, President

Nineteen sixty-one has produced a high level of activity in the Granite City Engineer Depot. Acquisition of new tracts of land by local industry for further expansion indicates confidence in the need for additional facilities with which to meet future consumer demands.

Development of Southern Illinois University at Edwardsville seems to be moving along on schedule and will eventually bring to the area an educational institution needed for many years, together with the demand for sufficient qualified personnel with which to operate such an institution.

All of these, supported by continued highway construction and the development of the Port Area, point to a high level of employment for 1962 with a resultant desire on the part of many for better housing.

More Home Construction
On a nationwide basis, it is expected that 1.4 to 1.5 million new homes will be built in 1962, which will be at least 100,000 more than in 1961. With any luck at all, the local area should receive its proportionate share of this increase.

Prices should remain fairly level. While mortgage money is plentiful, acquisition cost of homes and the money paid for them will rise in the months ahead due to recent increases on interest rates on savings.

There are already many signs that 1962 will be one of our better years. The automobile industry is well on its way to setting one of its best years since 1955 with an anticipated 7.2 million cars and trucks. Increased defense spending is resulting in renewed much optimism.

There are already many signs that 1962 will be one of our better years. The automobile industry is well on its way to setting one of

Tri-City Regional Port District

By Carl A. Rault, Chairman

During the year just past the Tri-City Regional Port District made a number of substantial gains toward making the port a reality. However, it was delayed in a number of important categories over legislative problems and the general reluctance of industry to expand during the early part of the year.

It is now believed that the major part of the legal problems have been resolved and will permit the port to proceed and develop along the lines originally planned, which is the use of revenue bonds only, and to permit the port from the local tax structure.

Coupled with the general optimism in business and favorable legal decisions, a number of firms now have agreed to work with the plans in connection with this port.

During the course of the year, the district was able to work out the financial details and complete the necessary legislative requirements which would permit it to purchase from Owens-Illinois Glass Co. the old American Car & Foundry plant in Madison. This facility was deemed necessary to provide cheap backhaul warehousing and terminating facilities for products that could not support new construction.

Tentative Leases
Plans for the new port on the Chain Rock Canal have proceeded in an orderly manner, and a number of tentative leases have been consummated for terminating operations and facilities to be operated.

At the present time, there is only one major facility lacking that would permit immediate construction on the entire port. The district is presently negotiating with five major firms for the key facility. It is expected that suitable and satisfactory contracts will be made within the next few months that will permit it to go ahead with the entire new port.

There have been a few rejections by the port board of firms desiring facilities in Madison, and the new port, because the contemplated operation did not provide a proper long-term utilization for the development of this very valuable land for the future economy of the Tri-City area.

Due to the limited space available on the canal, serious consideration must be given to the utilization of each parcel in order to provide a permanent long-term gain, primarily to meet the needs of existing industry in the area, and possibly attract new industry to the area at a later date.

The overall development prospects of the port installation, and the industrial prospects for the communities behind the port.

Dempsey-Tegeler & Co.

By George J. Frangoulis, Resident Manager

The "Golden Sixties" have yet to vindicate themselves in the eyes and pocketbooks of many investors. It may well be that the year 1962 will provide the stimuli needed to at least start this train of predictions towards its fulfillment.

I believe that the essential ingredients that can bring this about will be prevalent in the ensuing year, but it will be interesting to note just how public reaction, emotion and domestic and international economic conditions will mold these factors.

One prominent factor in the year that we, as an industrialized nation of giants, are currently producing at the rate of \$240 billion compared with a gross national product in 1960 of \$204 billion. It is not surprising that this advance may carry the GNP to a figure of some \$360 billion for 1962 and project to \$750 billion for the year 1970.

More Families, Research
The rate of growth of the population, the increase in family units, increased research expenditures and government spending will all combine to bolster this anticipated economy.

The coming of the new year promises to give new impetus to the upward movement of the securities market although, of course, the advance will be liberate and selective in nature and subject to corrective influence from time to time.

A cautious approach is wise for even though some analysts estimate the Dow-Jones averages climbing to the vicinity of 840, it is not generally suggested that the advance will be along a broad line of stocks.

Higher Dividends
Earnings and dividends are likely to move upward. It may also be more realistic to recognize that a 15 to 20 percent increase in dividends is now more in line than 10 to 15.

Inventories will be replenished at a gradually increasing pace and, with a strike possibility hovering over steel next summer, companies depending on this basic material may well start stockpiling to permit uninterrupted operation during a strike period.

Personal income is expected to increase by some \$28 billion over the \$417 figure of last year, with a growth of this money going towards the purchase of various durable goods, such as houses, cars, furnishings, automobiles, etc. This could amount to as much as a 15% increase.

Review and Forecast

Tri-City Grocery Co.

By S. E. Pershall Jr., President

Every year it becomes more difficult to correctly estimate what the year ahead will show economically. It is difficult for us to even estimate the economic future for a month in advance. Some companies showed profit gains in 1961, while others showed decreases. We do not feel that 1962 will be much different. Some concerns will be ahead of 1961 and some will run behind.

I do not believe that the majority of companies will show improved profits in 1962 as is predicted by many economists. All overhead is showing a steep increase, while in many businesses the productivity and volume has not risen enough to offset this overhead.

Tri-City Grocery Co. showed an increase in volume during 1961. We hope plant projects for 1962. However, we showed a decrease in net profit. We will have to correct during 1962.

We opened one new supermarket in 1961, a 30,000-square-foot store in Warsaw, Mo. We have not started construction on any new supermarkets, but are considering new sites in Illinois and Missouri.

Retail Revolution
The retail field is in a revolution. The change in retail outlets, the handling of the same goods, the department stores, variety stores, and discount stores, are used to sell exclusively. They also handle many items from the supermarket to handle exclusively.

Only the future will answer the question of whether this is the smart thing to do and whether retail outlets will continue to handle and add lines. We have seen the change in the past to their operation. I do feel that Tri-City Grocery will be able to meet, prior to, any type of competitor in the future.

Southwestern Bell Telephone Co.

By F. B. Hunt

Vice-President & General Manager

The advent of direct distance dialing highlighted an eventful telephone year in the Quad-Cities area.

Marking a major communication advance for Quad-Cities customers, the new, fast, DDD service allows customers here to dial 50 million telephones in 6000 cities throughout the United States and Canada as easily as they call across the street.

Direct distance dialing and other expansion and improvement projects in 1961 were realized after months of planning and an expenditure of over a half million dollars.

We're continuing with our cable pressurization program with which we literally "air condition" telephone cables to stop trouble before it starts. Should a cable break occur, the air pressure keeps moisture out, permitting us to fix the break before service is impaired.

Advance Repairs
Our new automatic line insulation testing equipment already is working in Granite City. This device scans the lines for trouble. If it finds equipment, the equipment issues a warning to telephone men in the office who repair the trouble before service is affected.

Quad-Cities telephones also are equipped with a new device which halves a high-pitched tone and a recorded announcement to attract a subscriber's attention before the receiver has been left off the hook.

Our expenditures in the Quad-Cities will continue in 1962 as we keep pace with the rapidly growing region. Next year, we plan to spend almost a quarter of a million dollars for central office facilities and for wire, cable, poles and other outside plant equipment in the Quad-Cities area. And the area is growing. Let's take a look.

Daily Volume Tripled
Quad-Cities customers made 103,000 local calls every 24 hours in 1961—almost three times the daily volume at the close of 1960.

Long-distance calling also increased sharply since 1946, with 7400 of these calls being made every day in 1961 as compared to only 2000 fifteen years ago.

Terminal Railroad Association

By G. W. Maxwell, President

The year 1961 saw many far-reaching changes take place in the industry; 1962 will bring even more.

While carloadings the past year on the Terminal Association's trunk line railroads generally were down, the improved business picture nationally should result in a marked increase in moving by rail.

Business conditions generally in the Quad-Cities area were good in 1961 and continued improvement is expected in 1962. The TRRA is looking forward to participating in this improvement since the service of this company is closely associated with the progress of the Quad-Cities industrial area.

The Terminal handles the bulk of the freight traffic moving through St. Louis. More than 1,000,000 loaded cars were moved in 1961. In addition, it operates the Union Station which accommodates all of the passenger lines serving St. Louis. To maintain this position, the Terminal must provide the railroads and the nation's shippers with a dependable and economical service.

Modernization Program
A massive modernization program, begun several years ago, is helping the Terminal to achieve its goal. Considerable progress was made in 1961 in carrying out this modernization program.

For example, construction was on a fully automatic 82,000-mail sack sorting system which will electronically sort the more than 36,000 mail sacks handled by the Terminal each year.

Another major improvement completed last year is the Terminal's data processing center. Our DPC, taking advantage of the electronic age, has made possible the automation of virtually all of the Terminal's accounting and clerical activities. One example of its usefulness — the DPC now makes it possible for the Terminal to process a freight car anywhere on the railroad in a matter of minutes.

Also planned in 1962 is a new interlocking plant in East St. Louis known as Q Tower. This equipment, costing \$750,000, expedites the movement of trains through East St. Louis by automatically selecting routes for more than 250 train movements a day over the tracks controlled by this tower.

Pre-Blocked Method
An encouraging feature of 1961 was the increasing use made of the Terminal's "pre-blocked" method of moving freight cars through the St. Louis gateway. Under this system, freight cars destined for delivery by Terminal to a connecting line are grouped in a solid block when the train is made up before reaching St. Louis. Cars handled in this manner are on Terminal rails an average of less than three hours — a fraction of the time formerly required.

Other improvements include a 200-car parking lot in the Union Station train shed just off 18th Street, new Fred Harvey dining rooms, and elimination of the elevated tracks along the levee in front of the Jefferson National Expansion Memorial project.

With the modernization that has been achieved in plant and operating methods and with the additional improvements being planned, the Terminal is looking forward to enjoying a share of the continued improvement in business that is forecast for 1962.

Birds in a GC 'Take A Break'
Apparently Granite City contractors, builders and do-it-yourselfers decided to take a break from the holiday season and indulge in the number of building permits issued during the past 10 days.

Six permits, valued at \$852, were granted according to City Building Inspector Ed Bloomquist. It sets the monthly total to 25 permits worth \$38,007. The greatest amount of building activity in the past 10 days was seen in home improvement projects where three permits were purchased. Lester Henderson, 1833 Bremen avenue, obtained a \$3400 permit for a room-out addition. Francis H. Clanton, 2008 Illinois avenue, got a \$2000 permit to complete his dwelling. Samuel Clark, 2508 Jerden avenue, was issued a \$652 permit for general repairs and the erection of a porch.

Commercial building included a \$1000 permit issued to John Bloodworth, 1218 Nineteenth street, to remodel and make several repairs at his office at that address. The other commercial permit was issued to the Pizza House, 2500 Namoki road, for a porcelain enamel canopy sign.

One garage permit was obtained by Noel Foster, 2821 Roosevelt street, for \$1000. And one razing permit was issued by Paul Smith, 2657 Namoki road for an estimated cost of \$50.

Airman Robert D. Bell In Fuel Supply Course
During 1961, Robert D. Bell, son of Mr. and Mrs. Harry Bell of 2326 Edwards street, has been assigned to the U.S. Air Force technical training course for fuel supply specialists at Annapolis AFB, Md. He has completed his basic military training at Lackland AFB, Texas, was selected for the advanced course on the basis of his interests and aptitudes. He is a graduate of Granite City high school.

Royal Crown Cola Co.

By W. H. Glenn, President

In general, 1962 will have several advantages over the previous ten years.

One, consumers are richer in three ways. First, they have spent less of their income over the past several months than any comparable period since Korea. Second, their installment debt is down, allowing them the credit to purchase more goods. Last, net disposable income, plus fringe benefits, are boosted. These three factors should add substantially to demand in 1962.

Two, signs of inflation becoming a threat to recovery are nullified to some extent by two factors: (1) Excess plant capacity; (2) More workers at present than jobs.

Three, our economy is in a consolidated state, preparing for the expansion demanded by consumers, and in an extremely liquid position. This position is obtained due to the gap occurring between capital spending and cash flow since the upturn and completion of the low interest rates still prevailing from the recession trough.

Four, the upturn and the concurrent cycle in which 1962 cycle is now less susceptible to the historically violent downturns and coverous economic consumer and business psychology, the GNP trend in 1962 should rise to an annual rate of \$380 billion by the third quarter.

In summary, we may conclude that as the new year of 1962 is tolled in, we stand well into the recovery, which history shall mark as the upturn of the fourth post-world war recession. The signals reflecting general business attitude are mostly favorable, with only seldom echoes of unrest.

There are other factors, perhaps, which will make 1962 a good year in a good decade; but these are numerous and space is limited. Nevertheless, meaningful from my point of view are the incentives build-up, more advanced dollars, a \$10 billion increase in government spending, and the expectation that many indicators of national economy.

With the modernization that has been achieved in plant and operating methods and with the additional improvements being planned, the Terminal is looking forward to enjoying a share of the continued improvement in business that is forecast for 1962.

Mr. and Mrs. L. Philip Frohardt of Chicago, formerly of this city, have completed plans for a forthcoming trip to Europe. They will leave New York Jan. 7 by plane for Brussels and have tentatively planned a tour of five countries, returning in three weeks.

Miss Nancy Sowell, Bride-To-Be, Is Honored

Miss Nancy Sowell, who will be a June bride, was honored Tuesday evening at a miscellaneous shower given by Mrs. Jerry Lorentz and Mrs. Steve French at Third Baptist Church.

Miss Sowell, who is teaching in Seabrook, Md., and is home to spend the holidays with her parents, Mr. and Mrs. Charles Sowell, 2216 Manley avenue, will be married June 6 at the U.S. Naval Academy in Annapolis, Md., to Ralph E. Beedle, a son of Mr. and Mrs. Leland Beedle, 2088 Wayne avenue.

Present at the party were Mrs. Sowell, mother of the bride-to-be, her grandmother, Mrs. Fred Fossick, Mr. and Mrs. Beedle, Mr. and Mrs. Leland Beedle, Jr., of Norfolk, Va., Mrs. George Coolidge, Mrs. William Carmack, Mrs. Clarence O'Neill, Mrs. David Hessel, Mrs. Harold Lorentz, Mrs. Richard Kozikowski, Mrs. Howard White, Miss Nellie Hart, Miss Peggy Carmack and the guest of honor.

Games provided entertainment after the packages were opened and prizes were awarded to Mrs. Coolidge and Miss Hart.

HOME ON LEAVE

Jerry Shane, U.S. Navy, a son of Mr. and Mrs. Augustus O. Shane, 3000 Ash avenue, is at home from San Diego, Calif., Naval Training Station to spend the holidays with his parents.

MISS SHARON NEMETH, whose parents, Mr. and Mrs. Frank Nemeth, 2900 Saratoga avenue, are announcing her engagement to John Sikora, a son of Mr. and Mrs. Mike Sikora, 807 Grand avenue, Madison.

Miss Nemeth And John H. Sikora Are Engaged

Among the many holiday engagement announcements is that of Miss Sharon Katherine Nemeth, a daughter of Mr. and Mrs. Frank Nemeth, 2900 Saratoga avenue, to John H. Sikora, whose parents are Mr. and Mrs. Mike Sikora, 807 Grand avenue, Madison.

Miss Nemeth graduated from the Granite City high school and is presently a senior at Southern Illinois University. Her fiancé graduated from the Madison high school and is now attending Missouri Valley College in Marshall, Mo., where he is a senior student. He is a member of Beta Beta Beta, national science fraternity.

A summer wedding is planned by the couple following their graduation.

Three Children Treated For Minor Fall Injuries

Lacerations from falls brought emergency treatment at St. Elizabeth Hospital to three Granite City children Tuesday. All were cared for and released.

Donna Wilson, 20 months old, of 2221 Alexander street, required stitches to close a laceration over the left eyebrow, while 13-month-old Donna Dixon of 2151 Monroe street had three stitches to close a laceration on her chin.

Richard Bunch, 2, of 1835 Spring avenue, was treated for a laceration over the right eye suffered when he fell on a toy car.

ENNA JETTICK SHOE SALE NOW IN PROGRESS. BUNIES, 29TH & DELMAR.

DINNER PARTY AT ARBOGAST HOME. Rev. and Mrs. John Mmlitz and children, Jane Ellen, Pamela and Cindy, of Dubois, Ind., arrived in Granite City Tuesday to spend several days with Mrs. Mmlitz's parents, Mr. and Mrs. Arnold Arbogast, 2653 Lincoln avenue.

On Tuesday evening Mr. and Mrs. Arbogast entertained with a dinner party in honor of the visitors and their son, John Arbogast, who was celebrating a birthday.

Those present were Mr. and Mrs. Arbogast and their children, John Jr., Laura, Kirk and Colleen, Mr. and Mrs. Charles Farrell and their children, Michael and Peggy, and the out-of-town guests.

Rev. Mmlitz is pastor of St. Peter United Church of Christ in Dubois.

Select Name For Daughter. Mrs. and Mrs. Jerome Range, 4046 Vesce avenue, have selected the name of Susan Catherine for their daughter born Dec. 21 at De Paul Hospital in St. Louis. The baby has a sister, Joan, four years old.

Undergoing Checkup. Doris Jean Mosley, a daughter of Mr. and Mrs. Robert Mosley, 1208 Logan street, Venice, is a patient at Jewish Hospital, St. Louis, this week while undergoing a series of tests. She is expected home the latter part of the week. She is a senior at Madison high school.

Markley Photo

AT HOME FROM SCHOOL

Fred Hacke Jr. is at home from the University of Missouri, Columbia, Mo., to spend the holidays with his parents, Mr. and Mrs. Fred Hacke sr., 2516 Benton street. Early this week the Hacke family, accompanied by Mrs. Charles Forrester and Miss Carole Hackney, motored to Des Moines, Mo., for a visit with Mr. Hacke's parents and friends.

Pfc. Bela Kovacs, stationed at Fort Sill, Okla., and Mrs. Kovacs will return to the west Jan. 2 after spending the holidays with Mr. and Mrs. Paul Jackson, 2406 Delmar avenue.

Start the New Year Right ... Get Rid of that Back Ache

Here's a Wonderful Solution to your BACK ACHE Problem

THE "BACK SUPPORTER" MATTRESS by SPRING AIR

15 year guarantee

Persistent back ache? If it's caused by lack of firmness in your mattress—you can be rid of it tomorrow by sleeping on a "Back Supporter" tonight! Hundreds of leading hospitals are so convinced of its healthful benefits—they'll use no other mattress for their patients.

Actually, you get two degrees of resiliency in one mattress—firm on the side with cotton felt cushioning, extra-firm on the side with costly hair cushioning. Both give scientifically correct support to back muscles.

Come in and select your "Back Supporter" Mattress today. You get a 15 year guarantee and can buy on our easy payment plan.

In Memoriam 33
In loving memory of our dear
one ROBERT J. SQUIRES
who departed this life Jan. 1,
1958.

WIFE, CHILDREN AND
GRANDCHILDREN

In loving memory of JESSE E.
GONTERMAN who departed
this life one year ago today, De-
cember 28, 1960.

No one knows the silent heart
while
Only those who have lost can
tell
Of all the grief we bear in si-
lence
For the one we loved so well.
Our heart is filled with sadness
Our eyes shed many a tear
God knows how much we miss
you
At the end of one long year,
Sadly missed by
WIFE, CHILDREN AND
GRANDCHILDREN

Publication has been filed in the
Probate Court of Madison
County, Illinois, by Lucy R.
Reader, executrix, the admis-
sion into probate of the Last
Will and Testament of Elizabeth
Larner, now deceased, and for
the issuance of Letters Testa-
mentary to the said Petitioner,
Lucy R. Reader, and a hearing
has been set upon said Petition
to admit Will to probate and to
issue Letters Testamentary,
which hearing shall be held on
the 16th day of January, 1962,
at the hour of 10:00 A. M. in the
Probate Court, Madison County
Court House, Edwardsville, Illi-
nois.

NOW, THEREFORE, unless
you (the above named persons)
file your Answers to said Peti-
tion in said cause or otherwise
make your appearance herein at
the said Probate Court of Mad-
ison County, Illinois, on or be-
fore the 16th day of January,
1962, default may be entered
against you at any time after
that day, and said Will may be
entered into probate and Letters
Testamentary issued to the said
Lucy R. Reader, thereafter.

**Dennis R. Martin With
Marines In Puerto Rico**

Marine Pvt. Dennis R. Martin,
son of Mr. and Mrs. C. L. Mar-
tin of 2118 Iowa street, is under-
going six weeks of training at
Vieques, Puerto Rico, with the
Second Battalion, Second Marine
Regiment, an infantry unit of
the Second Marine Division.

Periodic tours will be made to
the island city of Isabela Segun-
da, and a special holiday trip
is planned to San Juan. The
unit is scheduled to return to
its home base, Camp Lejeune,
N. C., in mid-January.
